Problam Solving
strong relationship consistency
self-management
compatibility" and "flexibility
team spirit · time management

About Me

With over two years of experience in programming and front-end development, I am passionate about programming challenges and creating dynamic and beautiful user interfaces. I have the ability to solve complex problems. I have experience in developing responsive user interfaces.

Educations

Bachelor Degree computer science

Islamic Azad University
2022 - 2024
I graduated with a score of 85 and in this series, I learned the languages C and JAVA, mobile programming, and artificial intelligence at a basic level.

Employment History

Front-end Developer

SabzLearn
2022 - 2023
In the first year, I focused on HTML, CSS, and programming concepts with JavaScript, and then I delved deep into JavaScript accompanied by various projects, all of which are available on my GitHub.

Front-end Developer

Limoo Shirin
2023 - 2024
In the second year, I started with frameworks such as Bootstrap, Tailwind, and React, and with React:
Lifecycle, Ajax & API, Hooks, SPA, React-Router, useRef, HOC, project optimization with memorization
During this time, I also used commonly used libraries and tools such as: JWT, ReactBootstrap, MUI, Firebase, Postman, SweetAlert, Swiper.js, and with all these tools, I developed an online store project

Projects

I developed a fully responsive online store with React, Bootstrap, MUI, and an API from json-server.

October 2023 - December 2023
Source Code: https://github.com/m-hesam-moradian/onlineShop-React
Project Link:
https://electro-shop.liara.run/

Hobbies

I am passionate about programming, especially in the JavaScript language, and in my spare time, I develop simple robots using JavaScript. I love business and personal development books and also have a great interest in the world of cryptocurrency. In short, I love new technologies.
