

👋 Hi there! I'm a professional Web Designer & Automation Developer with over 5 years of experience helping entrepreneurs, small businesses, and agencies bring their digital vision to life.

I specialize in building clean, responsive, and user-friendly websites that not only look great but also convert. Whether you're launching a service-based brand, a personal portfolio, or a full eCommerce store—I'll deliver a modern and functional site tailored to your unique goals.

But I don't stop at design. My technical background in automation, data scraping, and AI chatbot development means I can also help streamline your business operations. From lead generation tools and live chat bots to backend automation and email follow-ups, I create seamless digital experiences that deliver measurable results.

### 🔧 **What I Offer:**

#### What Clients Say:

★ "Incredible work! The website exceeded expectations and made our business feel professional."

★ "Built exactly what we needed and added extra value with automations. Highly recommend!"

★ "Excellent communication and fast delivery—our site went live in just a few days."

#### Featured Work

One of my recent projects includes building the Luxury Lashes UK website, a complete mobile booking experience for a London-based lash technician brand. The project combined web design, SEO, and a product store with booking automation. It's now a key portfolio piece showcasing what I can deliver from end to end.

#### Let's Work Together

Whether you're just getting started or looking to level up your digital presence, I'd love to hear about your project. Let's build a website that reflects your brand and helps your business grow—backed by thoughtful design and powerful automation.
