Experience

December 2020 - April 2022
iGamez Private Ltd | Bengaluru, India
Full-Stack and Blockchain Developer

I have worked as a Full-Stack and Web3 developer and have been involved in team work building several websites and mobile applications.
I have built several betting platforms using MEAN-stack and have integrated many DApps.
Worked on the development and implementation of new blockchain technologies, collaborated with colleagues from other departments, and participated in the creation and testing of new software applications.

January 2020 - November 2020
Sonice Sonice UK Ltd | Bracknell, United Kingdom
Web and Blockchain Developer

I have worked as a Web and Blockchain developer in this company.
I have developed a cryptocurrency exchange website for myself.
I have created a validator named "hellenium" on the Stellar network.
Also, I have created a token named "msc1" and built many DApps using React.js.
Also, I have been involved in many teams works for other websites and applications.

September 2017 - October 2019
iTechArt | New York City, United States
MERN-Stack developer

I worked for this company as a MERN stack developer and have been involved in the development of many websites.
From there, I emerged as a full-stack developer and accumulated a lot of skills and experience.

September 2016 - April 2017
Kaldi | Ljubljana, Slovenia
Back-end developer

I've been working on the backend with PHP/Laravel, Python and Node.js.
In this position, I mainly experienced and improved my Node.js and Express skills.

August 2014 - April 2015
9GAG | 52A Sha Tsui Road, Hong Kong
Front-end developer

I have worked with the Front-end pages like landing page on web and mobile both. I modern programming languages like React.js, Vue.js, etc...
I have developed my sense as a Front End developer.
