Highly accomplished BSc Computer Science and Engineering graduate with a strong focus on blockchain technology. Proficient in Solidity, ReactJS, JavaScript, Docker, and Web3/DApp development. Demonstrated expertise in blockchain fundamentals and a proven track record of contributing to transformative decentralized projects. Eager to make a tangible impact in the field of blockchain technology.

Experience

It & Skill development Secretary   *2022- 2023*

1. Coordinated communication and information flow within the computer club
2. Organized skill development initiatives, including workshops and training sessions.
3. Provided technical support and guidance to club members

Internship   *2022-2022*

1. Worked extensively with Docker and Kubernetes, mastering containerization and orchestration technologies
2. Containerized applications using Docker, improving deployment efficiency and scalability.
3. Orchestrated multi-container environments with Docker Compose, simplifying application stack management.

Education

High School   *2011-2016*
- GPA: 4.83

College   *2016-2018*
- GPA: 4 .50

Bangladesh Army University Of Engineering and Technology   *2019-2023*
- Bachelor of Science, Computer Science and Engineering
- GPA: 3.28

Skills

Programming Language
1. JavaScript   2. Solidity   3. C   4. C++

FrontEnd
1. Reactjs   2. HTML   3. CSS   4. TailwindCSS

Blockchain Tech
1. Ethersjs   2.Metamask   3. IPFS   4. The Graph   5. DAO   6. NFT   7. DEFI

Web3 Framework
1. Hardhat   2. Alchemy   3. Thirdweb   4. Foundry
