## EXPERIENCE

### Software Engineer

03/2022 - Present

#### Techverx

Lahore, Pakistan

I have played a crucial role in providing extensive support for multiple React Native applications. Additionally, I have actively contributed to the development of an ERP product using React JS. My involvement in client communication and cross-functional discussions has been instrumental in fostering effective collaboration among teams. I not only excel in individual contributions but have also led and mentored a team of frontend developers. I effectively managed tasks, encouraged collaboration, and ensured timely project delivery. My leadership skills and technical expertise make me an asset in driving successful frontend development initiatives.

### Software Engineer

07/2021 - 02/2022

#### Xavor Corporation

Lahore, Pakistan

As a skilled React Native Developer, I have successfully developed and delivered robust mobile applications. My role involves seamless coordination with design and back-end teams to ensure smooth integration of required components. I actively engage in client communication and foster productive discussions with cross-functional teams to achieve project objectives effectively.

### Software Engineer

07/2020 - 06/2021

#### Crewlogix Technologies PVT. LTD

Lahore, Pakistan

I have a proven track record of successfully developing top-notch mobile apps. I collaborate seamlessly with design and backend teams, ensuring smooth integration and delivering exceptional user experiences. Moreover, I actively support and assist fellow JS/React developers, providing expert guidance on intricate JavaScript challenges. My dedication to excellence and teamwork make me a valuable asset to any development project.

### React Native Developer

12/2019 - 06/2020

#### Global Software Consulting

Lahore, Pakistan

During my tenure at this esteemed organisation, I have embarked on a remarkable learning journey. I initially focused on honing my JavaScript skills, and as time progressed, I transitioned to becoming a key contributor to various React Native projects. My dedication to continuous improvement and my ability to assist senior developers have been instrumental in delivering successful outcomes.

## EDUCATION

Bachelors in Information Technology, PUCIT

01/2019

#### University of Punjab

Punjab College of Science

01/2014

#### F.S.c Pre Engineering

## SKILLS

React Native · React Js ·

Redux Saga · Redux Toolkit ·

React Query · Javascript ·

Typescript · Html · Css · Github ·

React Material UI · React AG Grid ·

React Native Animations · CI/CD ·

Angular 10 · Micro-Frontend ·

AWS EC2 · Docker · Wordpress

## PROJECTS

### Nishat Hotel

I have developed the official application for Nishat Hotel, offering a seamless experience for guests. The app highlights the luxurious amenities provided by the hotel and enables users to conveniently book rooms directly from their mobile devices. It aims to enhance guest satisfaction and streamline the booking process.

### The Shop

Introducing "The Shop" - a food app that lets you customise meals with various sides. Order for pickup or delivery. Operating on a SaaS model, we tailor themes to suit individual client preferences while maintaining consistent and robust business logic. Built with React JS, Redux Toolkit, React Forms, React Material UI, and Typescript, delivering a seamless experience.

## ACHIEVEMENTS

---

-  Successfully led the development and launch of several React Native applications, achieving high user satisfaction and positive feedback from clients.
-  Implemented advanced state management using Redux, resulting in improved app performance and efficient data handling.
-  Actively participated in code reviews and applied best practices to maintain high code quality and adherence to industry standards.

## SUMMARY

---

Highly skilled and motivated React Native and React JS developer with over 4 years of professional experience. Proficient in building cutting-edge mobile and web applications, leveraging expertise in Redux, TypeScript, and React Query. Committed to delivering robust and scalable solutions, I continuously seek opportunities to learn and stay updated with the latest technologies. A team player with a track record of successfully collaborating on complex projects and driving them to successful completion. Looking forward to contributing my skills and passion to create innovative and user-centric software solutions.

## PROJECTS

---

### Friday Retail Management

Friday is a powerful ERP software built on the micro-frontend architecture using React.js. It features a container app that seamlessly integrates multiple sub-applications, ensuring modularity and reusability. This innovative design empowers businesses to optimize workflows and enhance productivity effectively.
