Professional Summary

Creative and detail-oriented Frontend Web Developer with over 2 years of experience building responsive, user-centric web applications. Proficient in modern JavaScript frameworks, performance optimization, and collaborating with cross-functional teams to deliver scalable solutions. Passionate about UI/UX design, accessibility, and developing secure, clean, and maintainable code.

Technical Skills

- Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript
- Libraries & Frameworks: React.js, Redux, Bootstrap, Tailwind CSS
- Tools: Git, GitHub, Webpack, NPM, Vite
- APIs: RESTful APIs, Axios
- Testing: Jest, React Testing Library
- Version Control: Git & GitHub
- Other: Responsive Web Design, Cross-browser Compatibility, Firebase, Figma

Professional Experience

Frontend Developer | Aladmo Technology | Jan 2024 – Apr 2024

- Built responsive, dynamic websites using React.js and integrated real-time features.
- Collaborated with designers to translate UI/UX wireframes into high-quality code.
- Optimized site performance, reducing load time by 40% using lazy loading and code splitting.
- Ensured cross-browser and device compatibility using media queries and modern CSS practices.

Frontend Developer | Africa Center of Excellence, OAK ICT-Driven Centre, Osun State | Apr 2024 – Dec 2024

- Designed and developed educational web platforms with interactive dashboards and AI-driven features.

- Integrated Firebase for backend support including authentication and real-time database.
- Implemented accessibility features and multilingual support for inclusive user experience.
- Conducted workshops and mentored junior developers on best frontend practices.

Frontend Developer | Electroll Technology | Oct 2022 – May 2023

- Developed e-commerce frontends with modern UI/UX using React and Tailwind CSS.
- Improved user experience with intuitive navigation, optimized images, and clean design.
- Collaborated with backend developers to integrate APIs and maintain secure data handling.
- Utilized GitHub for source control and team collaboration.

Selected Projects

- Malaria Reporting Web App – Developed a health-oriented reporting system using HTML/CSS, JavaScript, and Firebase for real-time updates and AI chat integration.
- ML-Powered Intrusion Detection System – Built a React interface and Django backend to monitor real-time user behavior, integrated with a trained keystroke/mouse dynamics model.

Education

Bachelor's Degree in Cyber security.

Abiola Ajimobi Technical University,Ibadan.
