## Education

2015-2019

### Bsc Mathematics

University of Ilorin, Kwara Nigeria

## SKILLS

### ● Front End

React,  
ReduxToolkit,  
HTML, CSS,  
Bootstrap,  
Vue, Typescript

### ● Back End

Node.js,  
Express.js,  
NestJs

### ● Version Control

Git

### ● Others

Laravel, Firebase, REST  
API, Heroku, Unix,  
Solidity, AWS, ElectronJS,  
C programming,  
PHP, Selenium, WEBRTC,  
Garnache, Truffle

## Language

English

## Experience

Feb 2023 - To June 2023

Elite Exclusivity (Remote) United States

### Fullstack engineer

- Developed and implemented an advertisement bot, automating the advertising process and increasing efficiency.
- Designed and programmed the Bot using Javascript and Nodejs library (Selenium) to target specific audiences and optimise ad placements across social media apps.
- Conducted thorough testing and debugging to ensure the bot operated flawlessly, improving accuracy and reducing manual error.
- Regularly update the bot's features and functionality based on feedback, emerging trends and changing advertising platforms.

Jan 2022 - Jan 2023

Kudi Crypto, Remote Nigeria

### Fullstack engineer

- Developed and maintained the KudiCrypto web app using React, built and integrated back-end services with Node.js and Express, and optimized database structures for performance.
- Designed and implemented a fully functional NFT marketplace from scratch, utilizing modern web technologies and frameworks, with a focus on delivering a seamless and intuitive user experience for buyers and sellers.
- Integrated blockchain technology into the NFT marketplace to ensure secure transactions and ownership verification.
- Implemented a robust back-end infrastructure handling user authentication, data storage, API integrations, and actively collaborated with cross-functional teams to deliver high-quality code on schedule for both the KudiCrypto web app and the NFT marketplace.

2020-2022

HOME PAL (Remote) Texas, United States

### Fullstack engineer

- Developed and implemented the Apigee API management platform to streamline API integration and enhance scalability for client projects.
- Collaborated with cross-functional teams to gather requirements, define API specifications, and ensure adherence to industry best practices and security standards.
- Leveraged Apigee policies and configurations to handle authentication, authorization, rate limiting, and caching for APIs, while also implementing traffic management and monitoring solutions.
- Assisted in code reviews, provided technical guidance, conducted comprehensive testing, and troubleshooted issues related to API connectivity, data transformation, and performance bottlenecks. Additionally, actively participated in Agile development methodologies and documented API specifications and best practices.
