Summary

I'm a skilled creative designer specializing in UI/UX design. My expertise has been finely honed through a diverse array of roles in the industry. I bring a wealth of knowledge and experience to the table, encompassing expert skill sets in UI design, UX design, strategic thinking, prototyping, and product design and branding. My passion lies in crafting digital solutions that elevate and enhance the quality of people's lives.

Experience

Senior Product Designer

Remotebase

Sep 2022 - Present (1 year 1 month)

Led the redesign of the main website remotebase.com.

Led the design team in the design of a product called Talently, which has been launched.

Designed many marketing landing pages for marketing purposes.

Worked with clients like Agentnoon, Salt Ventures, and Hire Pluto, scaling their products.

Senior UI Designer (Remote)

Leda Health

Apr 2019 - May 2023 (4 years 2 months)

Designed an app that helps to transform existing systems related to sexual assault.

Created a design system indicating colors, typography, components, and other design elements.

Collaborated with the developers for a devs handoff and oversaw the product build from start to finish.

Designed a website with Figma and implemented it with Webflow.

Senior Visual Designer

Toptal

Dec 2020 - Nov 2022 (2 years)

UX/UI Designer

Second Company

Nov 2019 - Jul 2022 (2 years 9 months)

Collaborated with business analysts, developers, and product owners to improve the UX of a client's digital roofer platform.

Created an elaborate and effective style guide and used Sketch and InVision to present it to the client.

Redesigned the onboarding process of a therapist platform.

Created icons, illustrations, error pages, and email templates for numerous clients.

Senior Product Designer

Modus Create

Apr 2021 - Dec 2021 (9 months)

Collaboration with other designers in solving internal related problems

Collaboration with product managers, project managers and developers in building amazing products for clients.

Created designs and animation to be used for the company's portfolio channel on dribbble

User Interface and Experience Designer

Techgrata Limited

Feb 2020 - Jun 2020 (5 months)

Redesigned the company's website to have a better look and feel and also clearly define the company's purpose.

Designed a SaaS application that aggregates end-to-end haulage operations to help cargo owners, truck owners, drivers, and cargo recipients achieve an efficient supply chain framework.

Designed an app that helps users make payments easily with the use of a QR code.

Created user stories, user journeys, and wireframes to help define the UX of each of the company's products.

UI Designer

CredPal

May 2019 - Nov 2019 (7 months)

Strategized and planned design concepts for major products.

Designed a product (Cred Finance or Finance Center) that helps in financing users with cash loans or asset-based loans based on their credit limits.

Designed the Credbuilder landing page and web application, which helps users build their credit scores so that they can qualify for financial benefits such as home mortgages, insurance, and car financing.

Provided creatives and videos for social media posts and advertising purposes.

Lead the design of a Loan underwriting system

UI/UX designer and Web developer

Herlabytes

Dec 2017 - Apr 2019 (1 year 5 months)

Designed a school management system that was used by schools in remote areas for easy management of school activities.
Revamped the company's website, thereby giving it a more intuitive and standard look and feel.
Strategized and planned design concepts and provided mockup designs for web and mobile applications.
Provided a mockup design for a mobile application for Flexenclosure, a telecommunications company.
