Dear Receiver:

Your company shows interest accepting Christopher Mohale full-time as per the position applied for. For more than four years he managed the contract under our organization witch assured production was taken care off by assuring that cartons where folded at the direct times required or before hand. Managing his own team and supervising them on a daily basis to assure the work was done completely as required by our company.. His recent layoff was the direct result of our off season .

Christopher Mohale is an intelligent and motivated individual with the aim of doing good for many others in the future. He is more than capable of managing a group of people. As senior in His small operation, Christopher Mohale recruited and managed more than 50 individuals over the period as employ them to work at different farms and his always hands on from time to time helping his teams on site where needed. With the help of this teams, he managed to produce a high-quality service towards the export industry, as we all know without his services no packaging for exports would take place every day and he never misses a deadline in case of miss communication otherwise never.

As part of his strategies for team building Christopher Mohale interviews individuals making sure before they start that they meet the required age, knowledge and understanding of protocol in our sector and developed skills on new ways and areas for growth to make things as smooth as possible, with that he encourages his teams to seek for better and not remain at one pace. Peers within our organization would often tell me that he is interesting to talk to and recommend his services for anyone looking to hire him and his team. I believe that developing quality relationships with small entrepreneurs is the responsibility of our own and to make things work would depend on themselves, and Christopher Mohale has proven to be trustworthy and reliable witch makes him a great candidate for the opportunities he shows interest in. Christopher Mohale's consistent contributions to that end are an excellent case in point.
