University of Bahri   *2023*
Computer Science

🚀 Projects

Emarket.sd
Set up an **E-Commerce** store with a flutter app in less than a month using **WordPress** and **WooCommerce**.
Results :
Clean and neat website with a fast and easy to use UI, created it In a shared hosting using as low resources as possible and it's as stable as Amazon or EPay.

Morsal
Added many new features and passed EBS Quality assurance rounds. Created Morsal Merchant app from scratch. Deployed and set up servers for development and production.

Social.sd

Social network with posts, comments and likes.
