

Hi! I am
Ahsan Ilyas
Blockchain Developer...

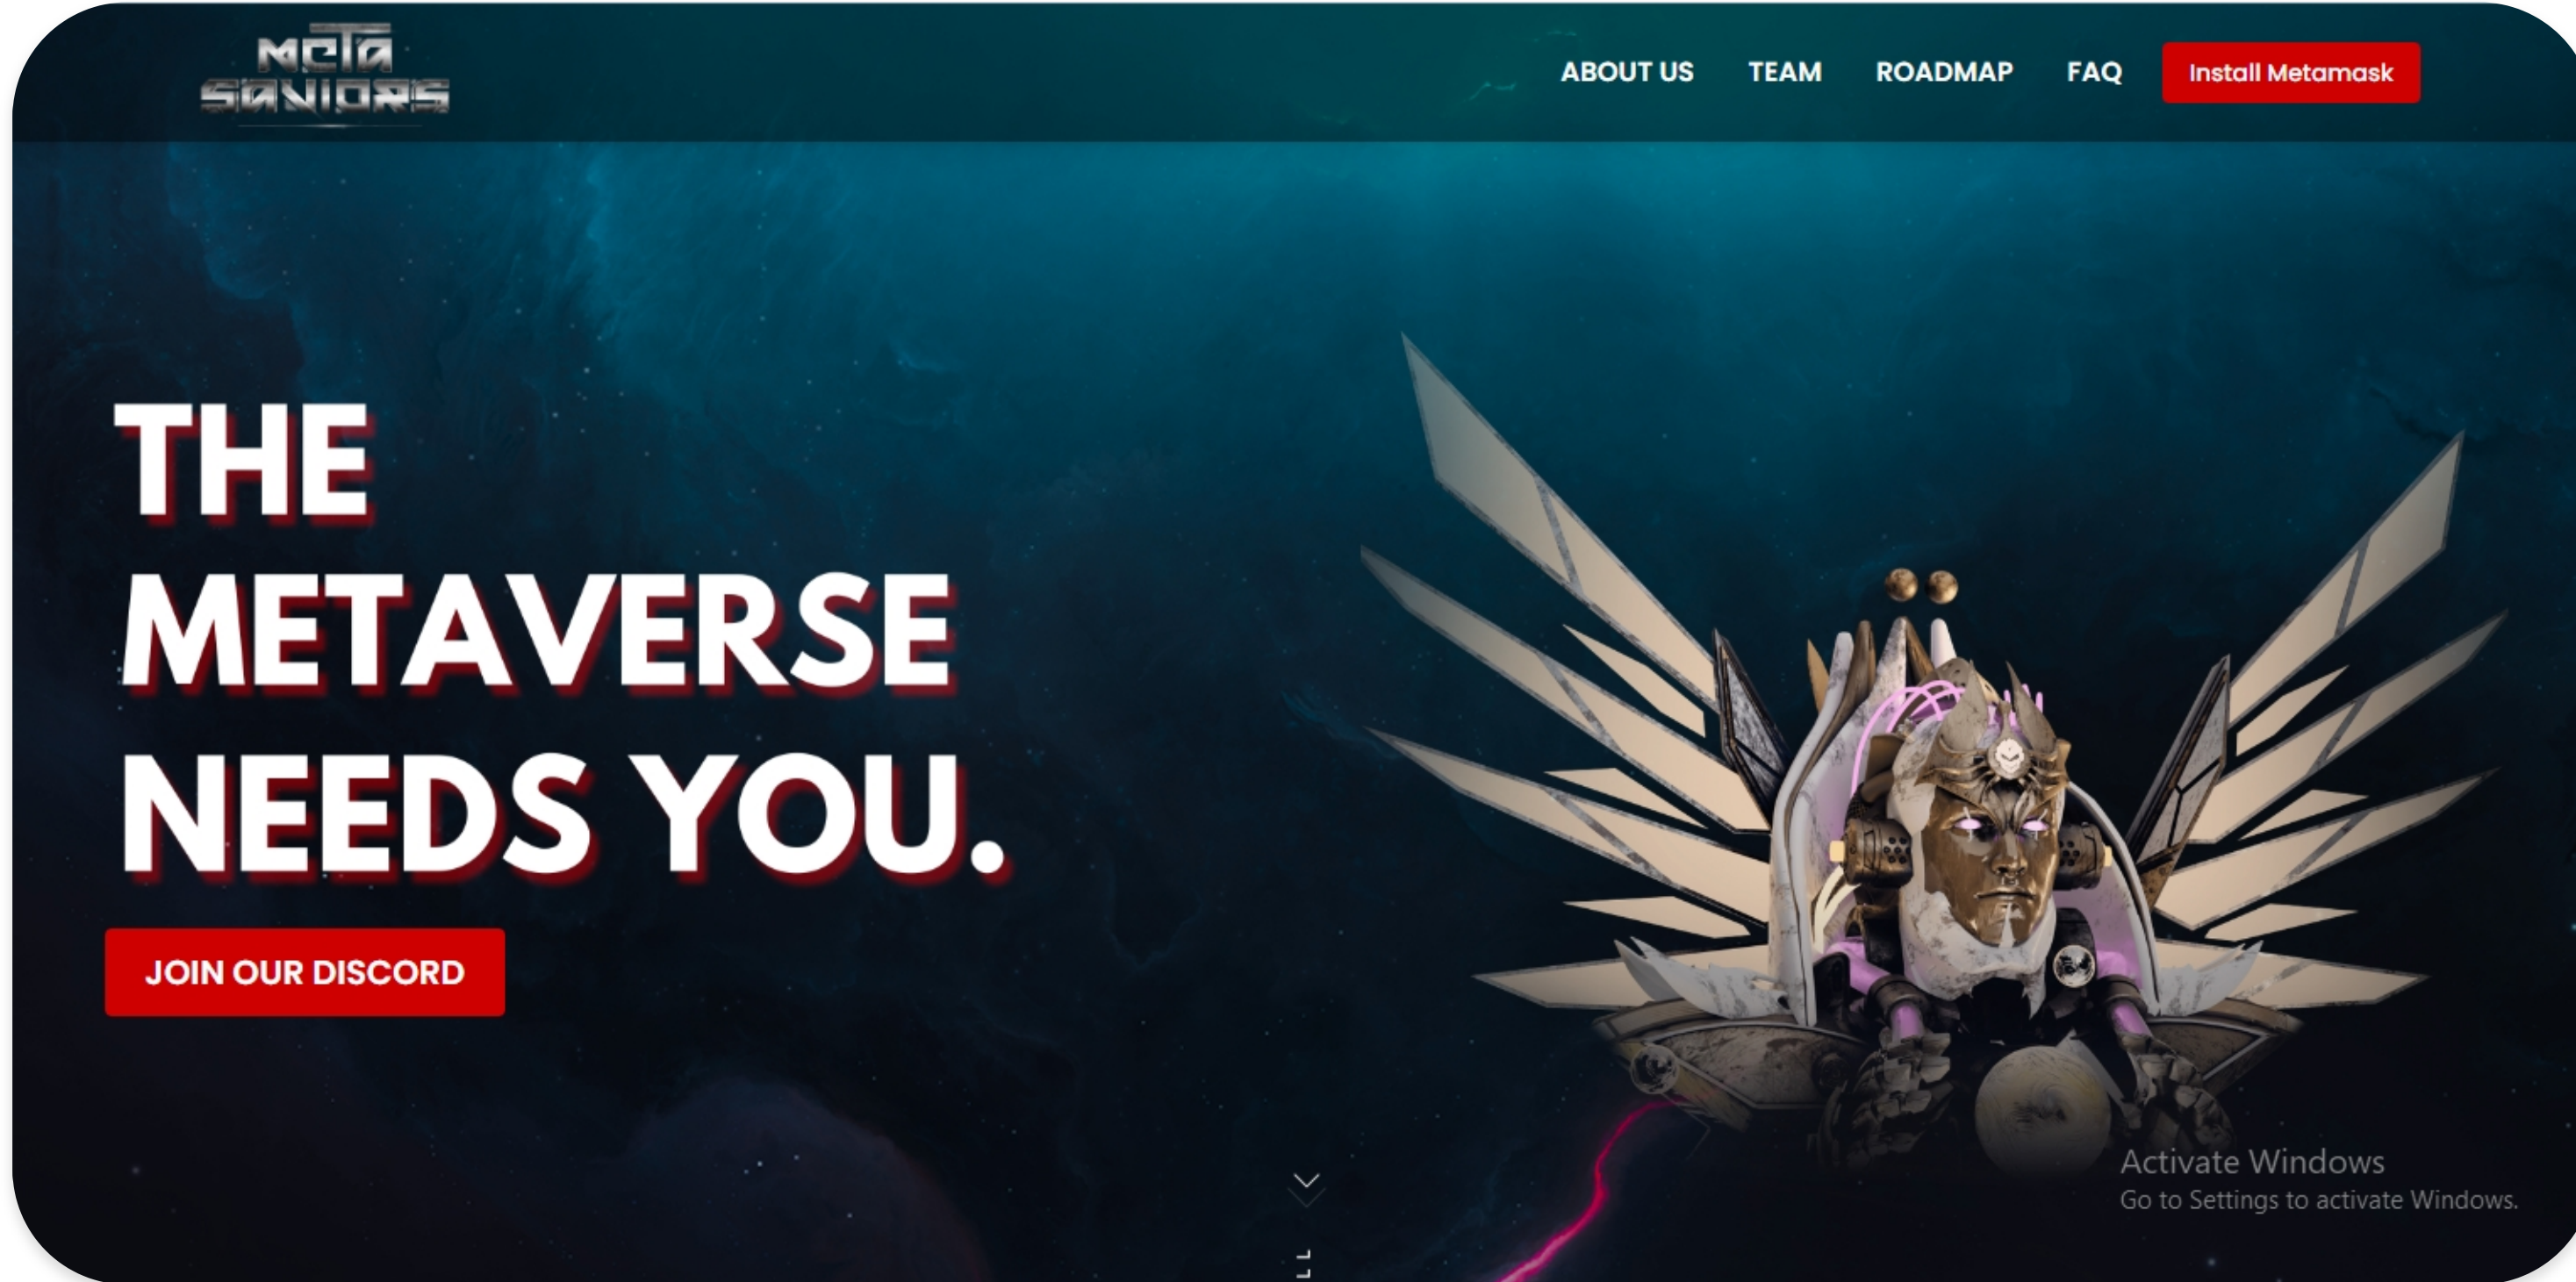

My Services

- ☒ NFT Minting website.
- ☒ Minting DApps and tokens(ERC20,721,1155)
- ☒ Wallet integration
- ☒ Smart contracts Audit Report
- ☒ NFT minting bot
- ☒ NFT Marketplace on ethereum polygon and binance
- ☒ Financial Dapp
- ☒ Blockchain Consultancy
- ☒ SmartContract Testing
- ☒ Integrate Metamask and smart contract with dapp
- ☒ NFT Mint bot
- ☒ Develop a Solidity, React, Web3 dapp

Previous Work

<https://metasaviors.net>

This is a minting DAPP where you may receive an NFT airdrop for holding a certain NFT in your wallet. Metasaviors is a collection of 8004 soldiers of the Metaverse. There are 4 factions of heroes, which are stored as ERC-721 tokens on the Ethereum blockchain ready to save the metaverse.

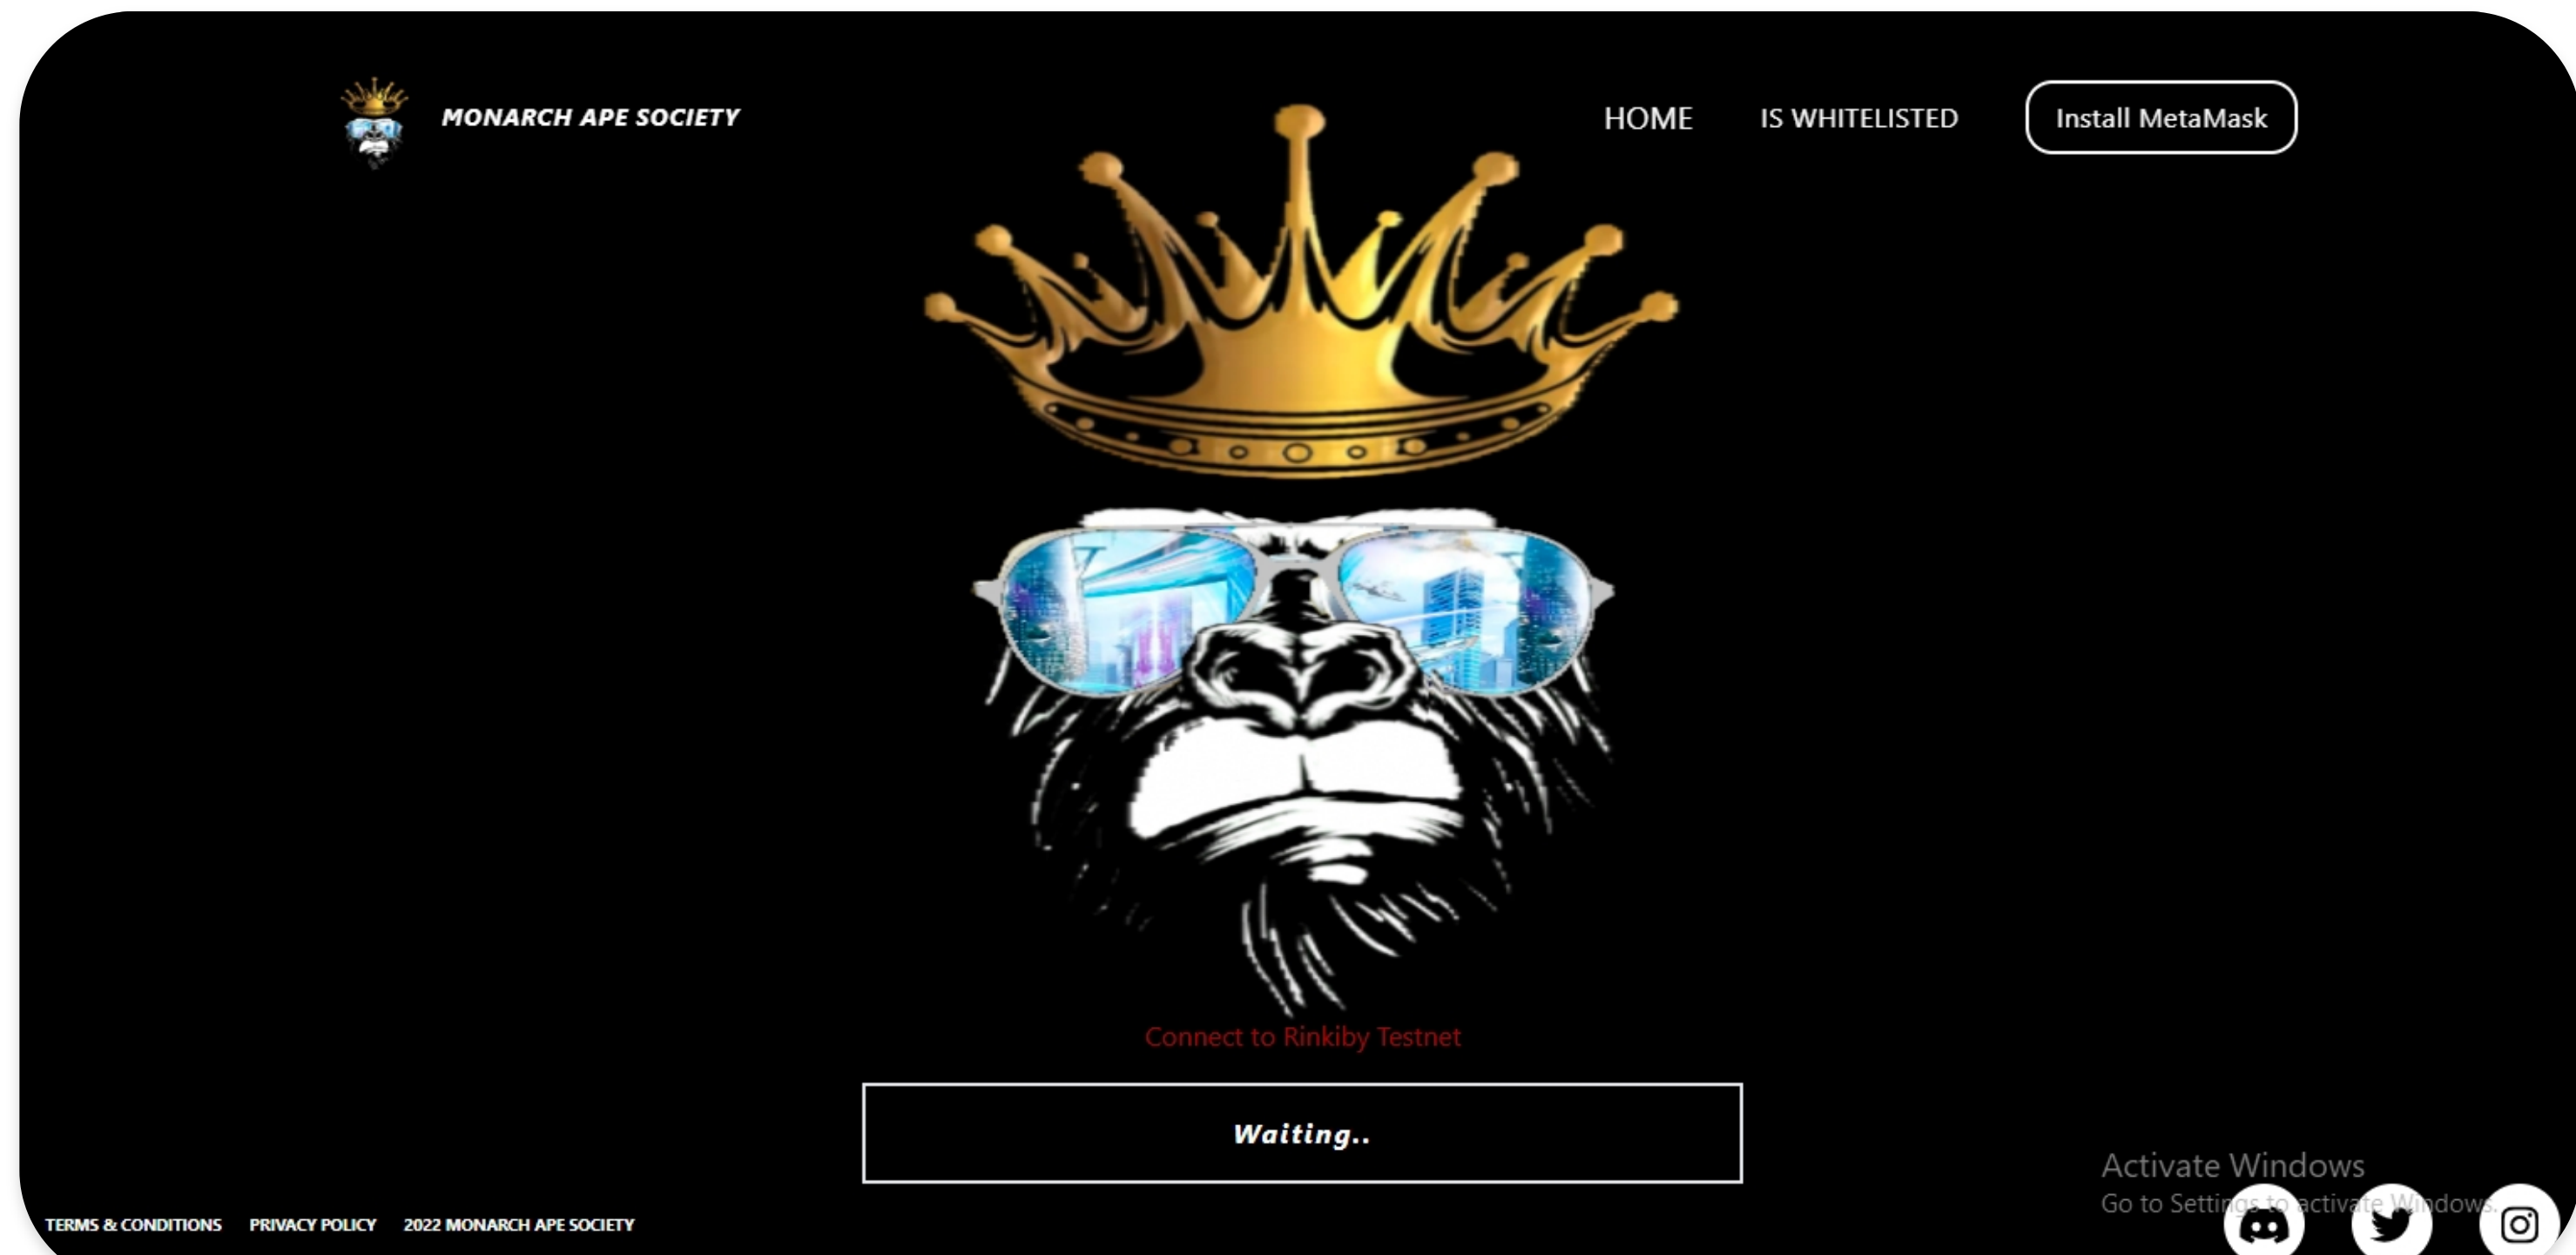

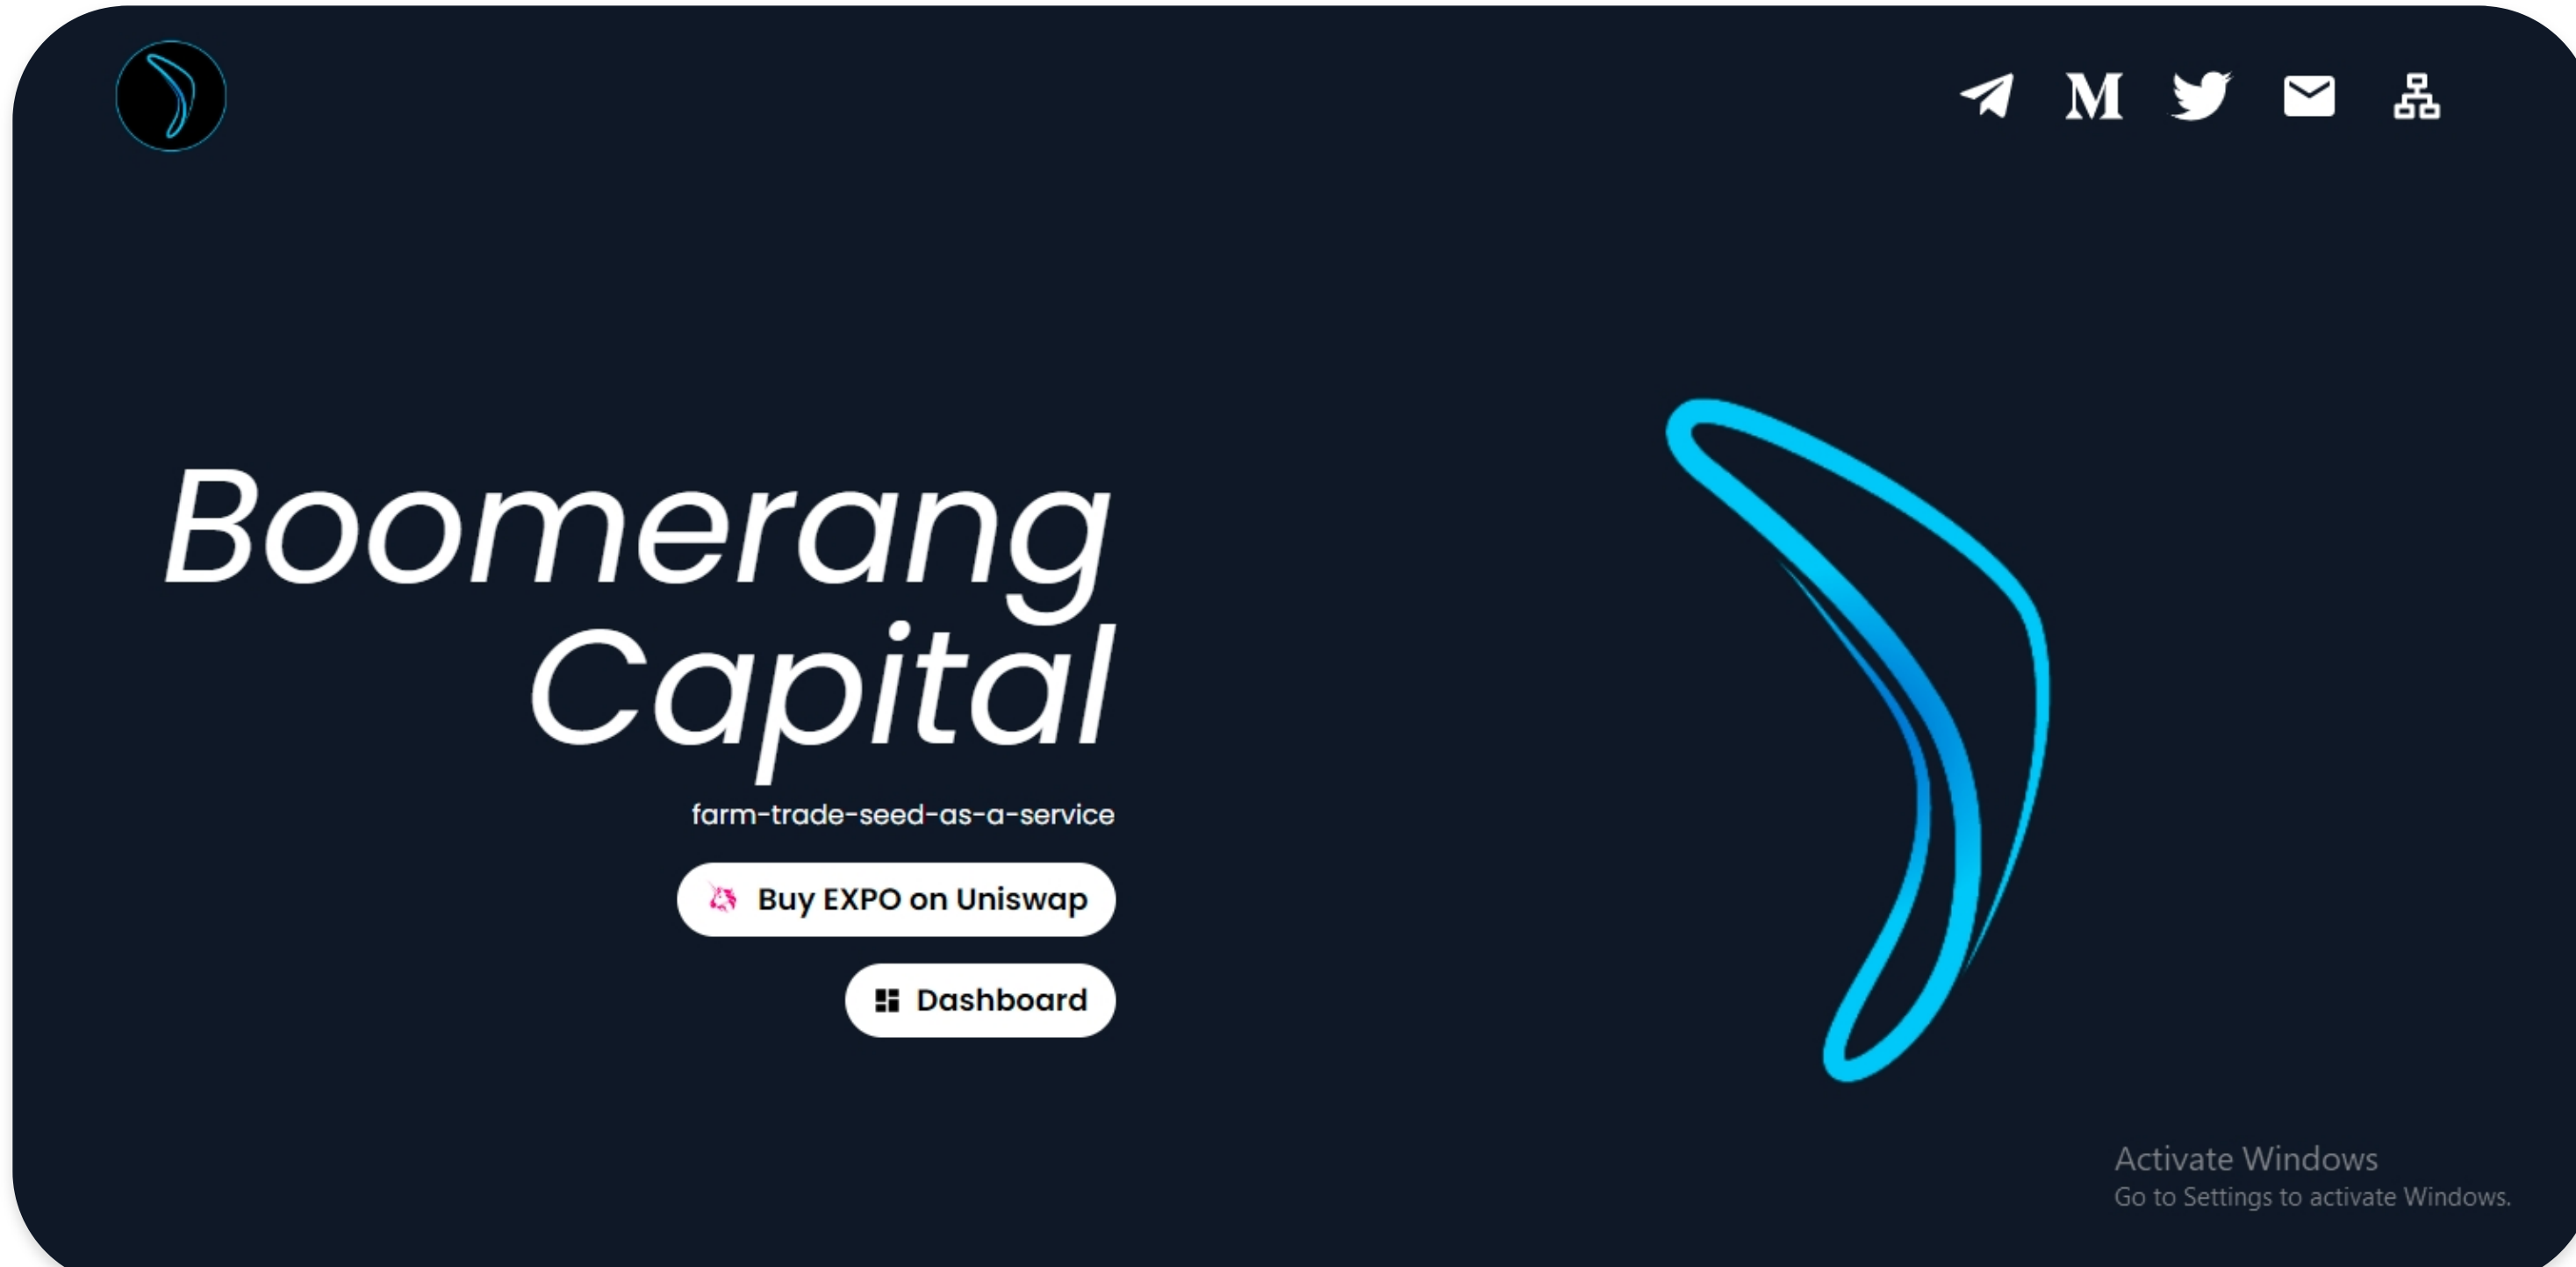

<https://rebel-rhinos.netlify.app/>

Rebel Rhinos are a collection of NFT's in a realistic 3D art format.

<https://boomerang-capital.netlify.app/>

The Boomerang-capital invest across multiple chains and reward EXPO holders with buy reflections and generated profit.

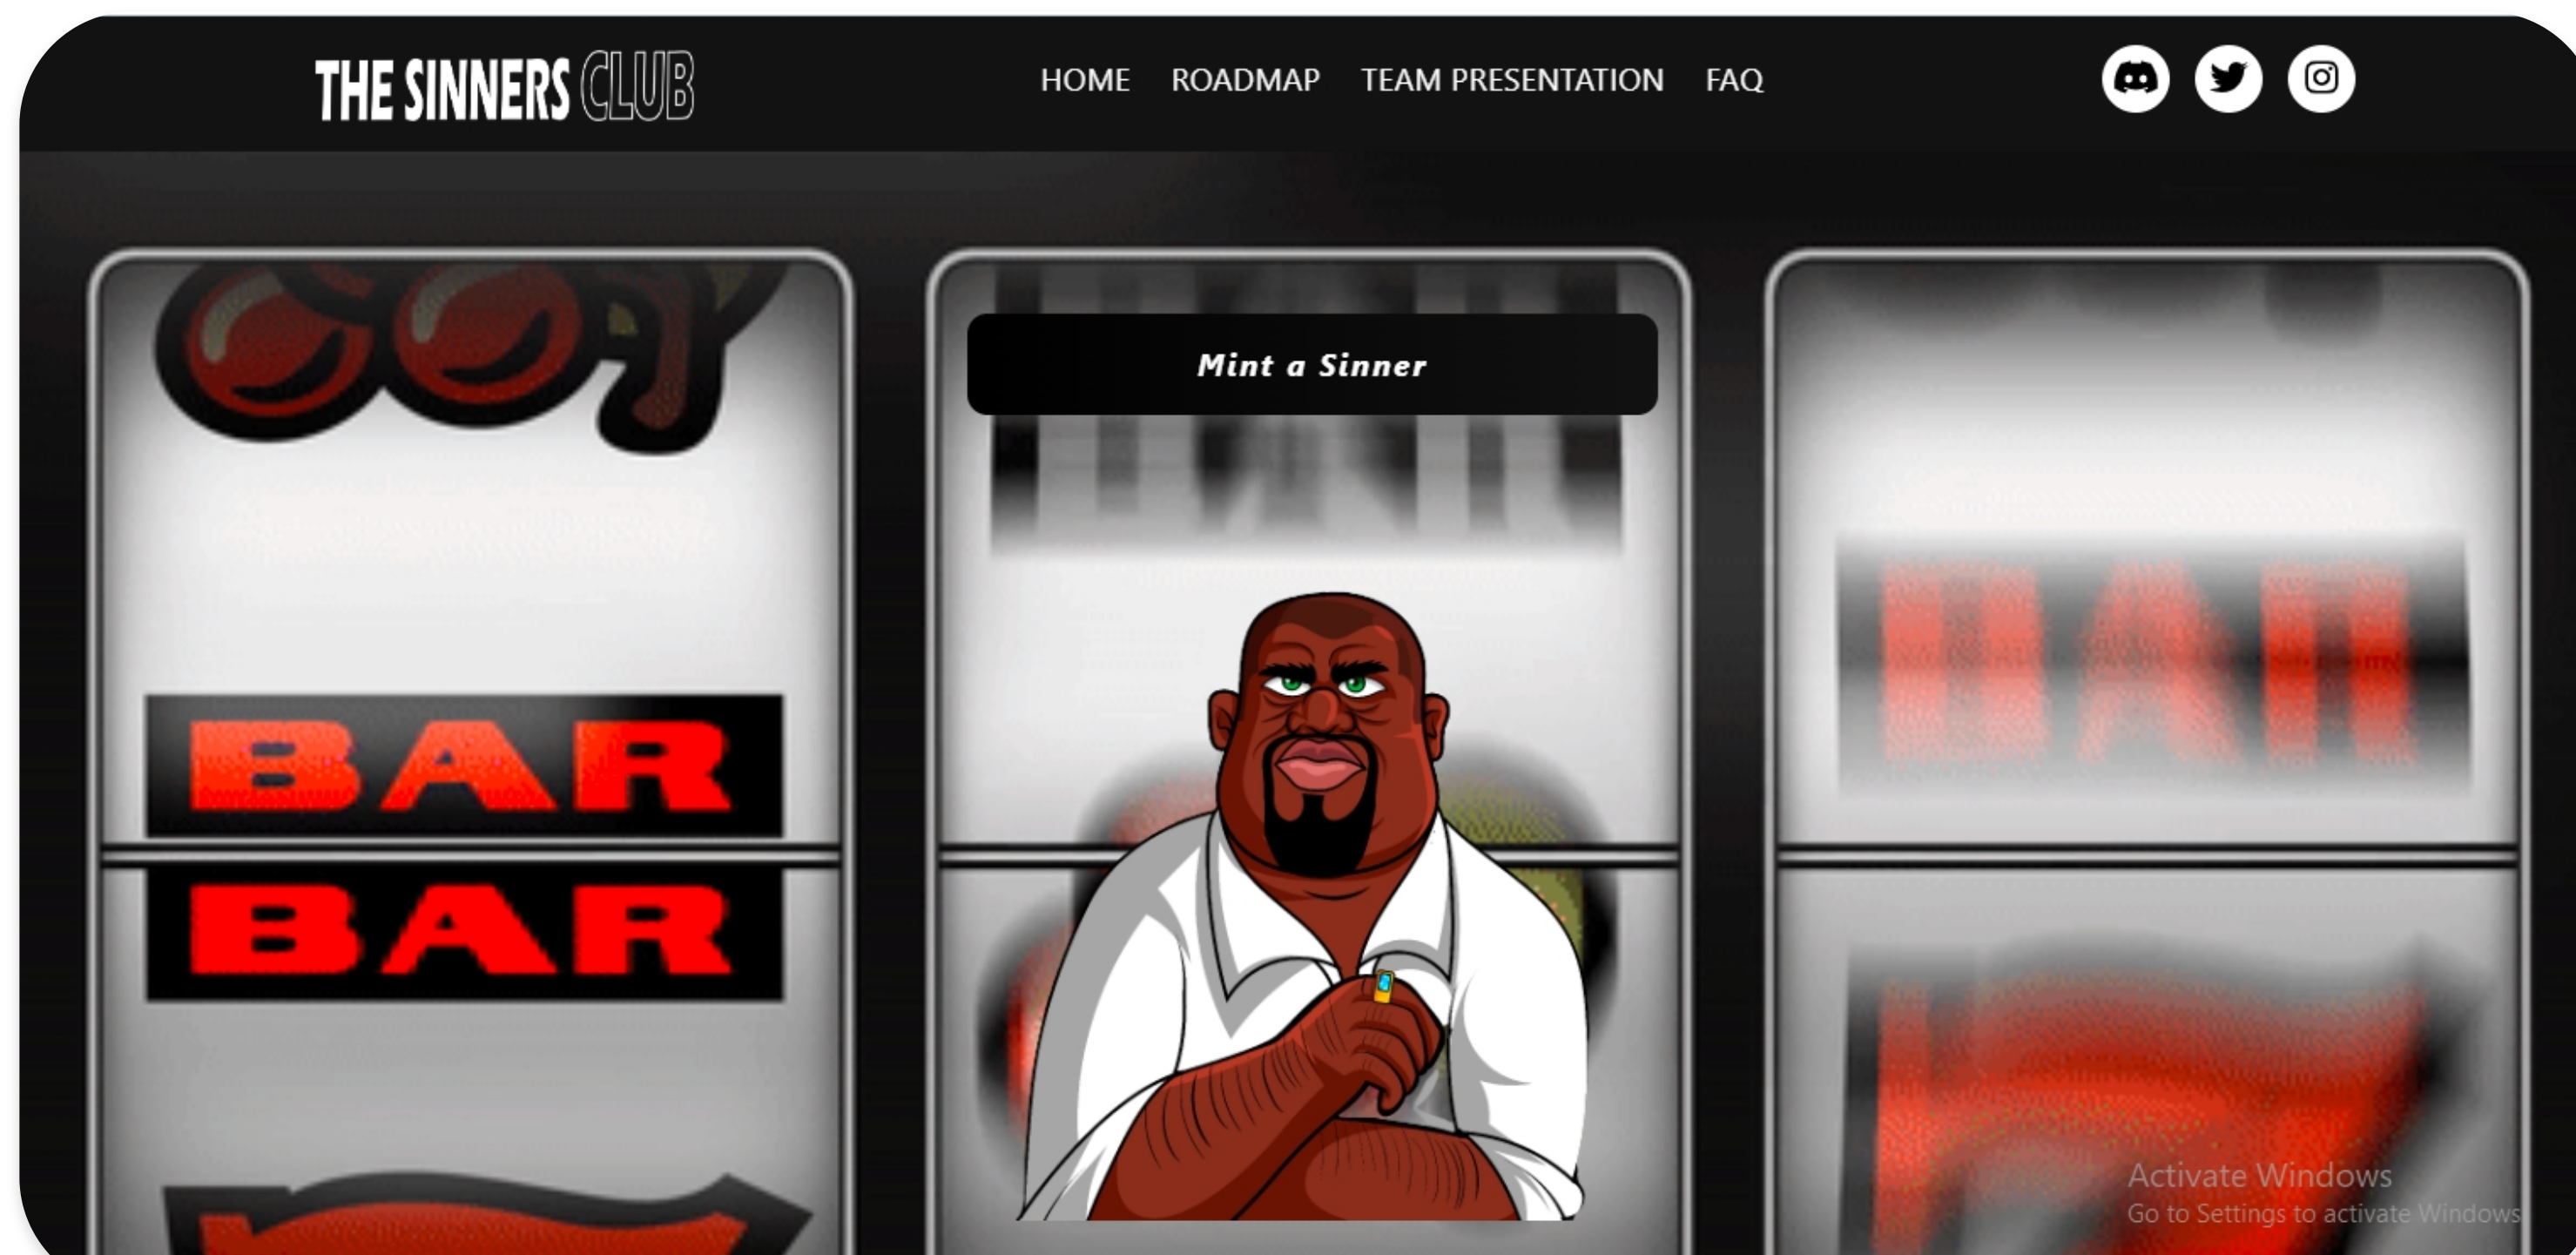

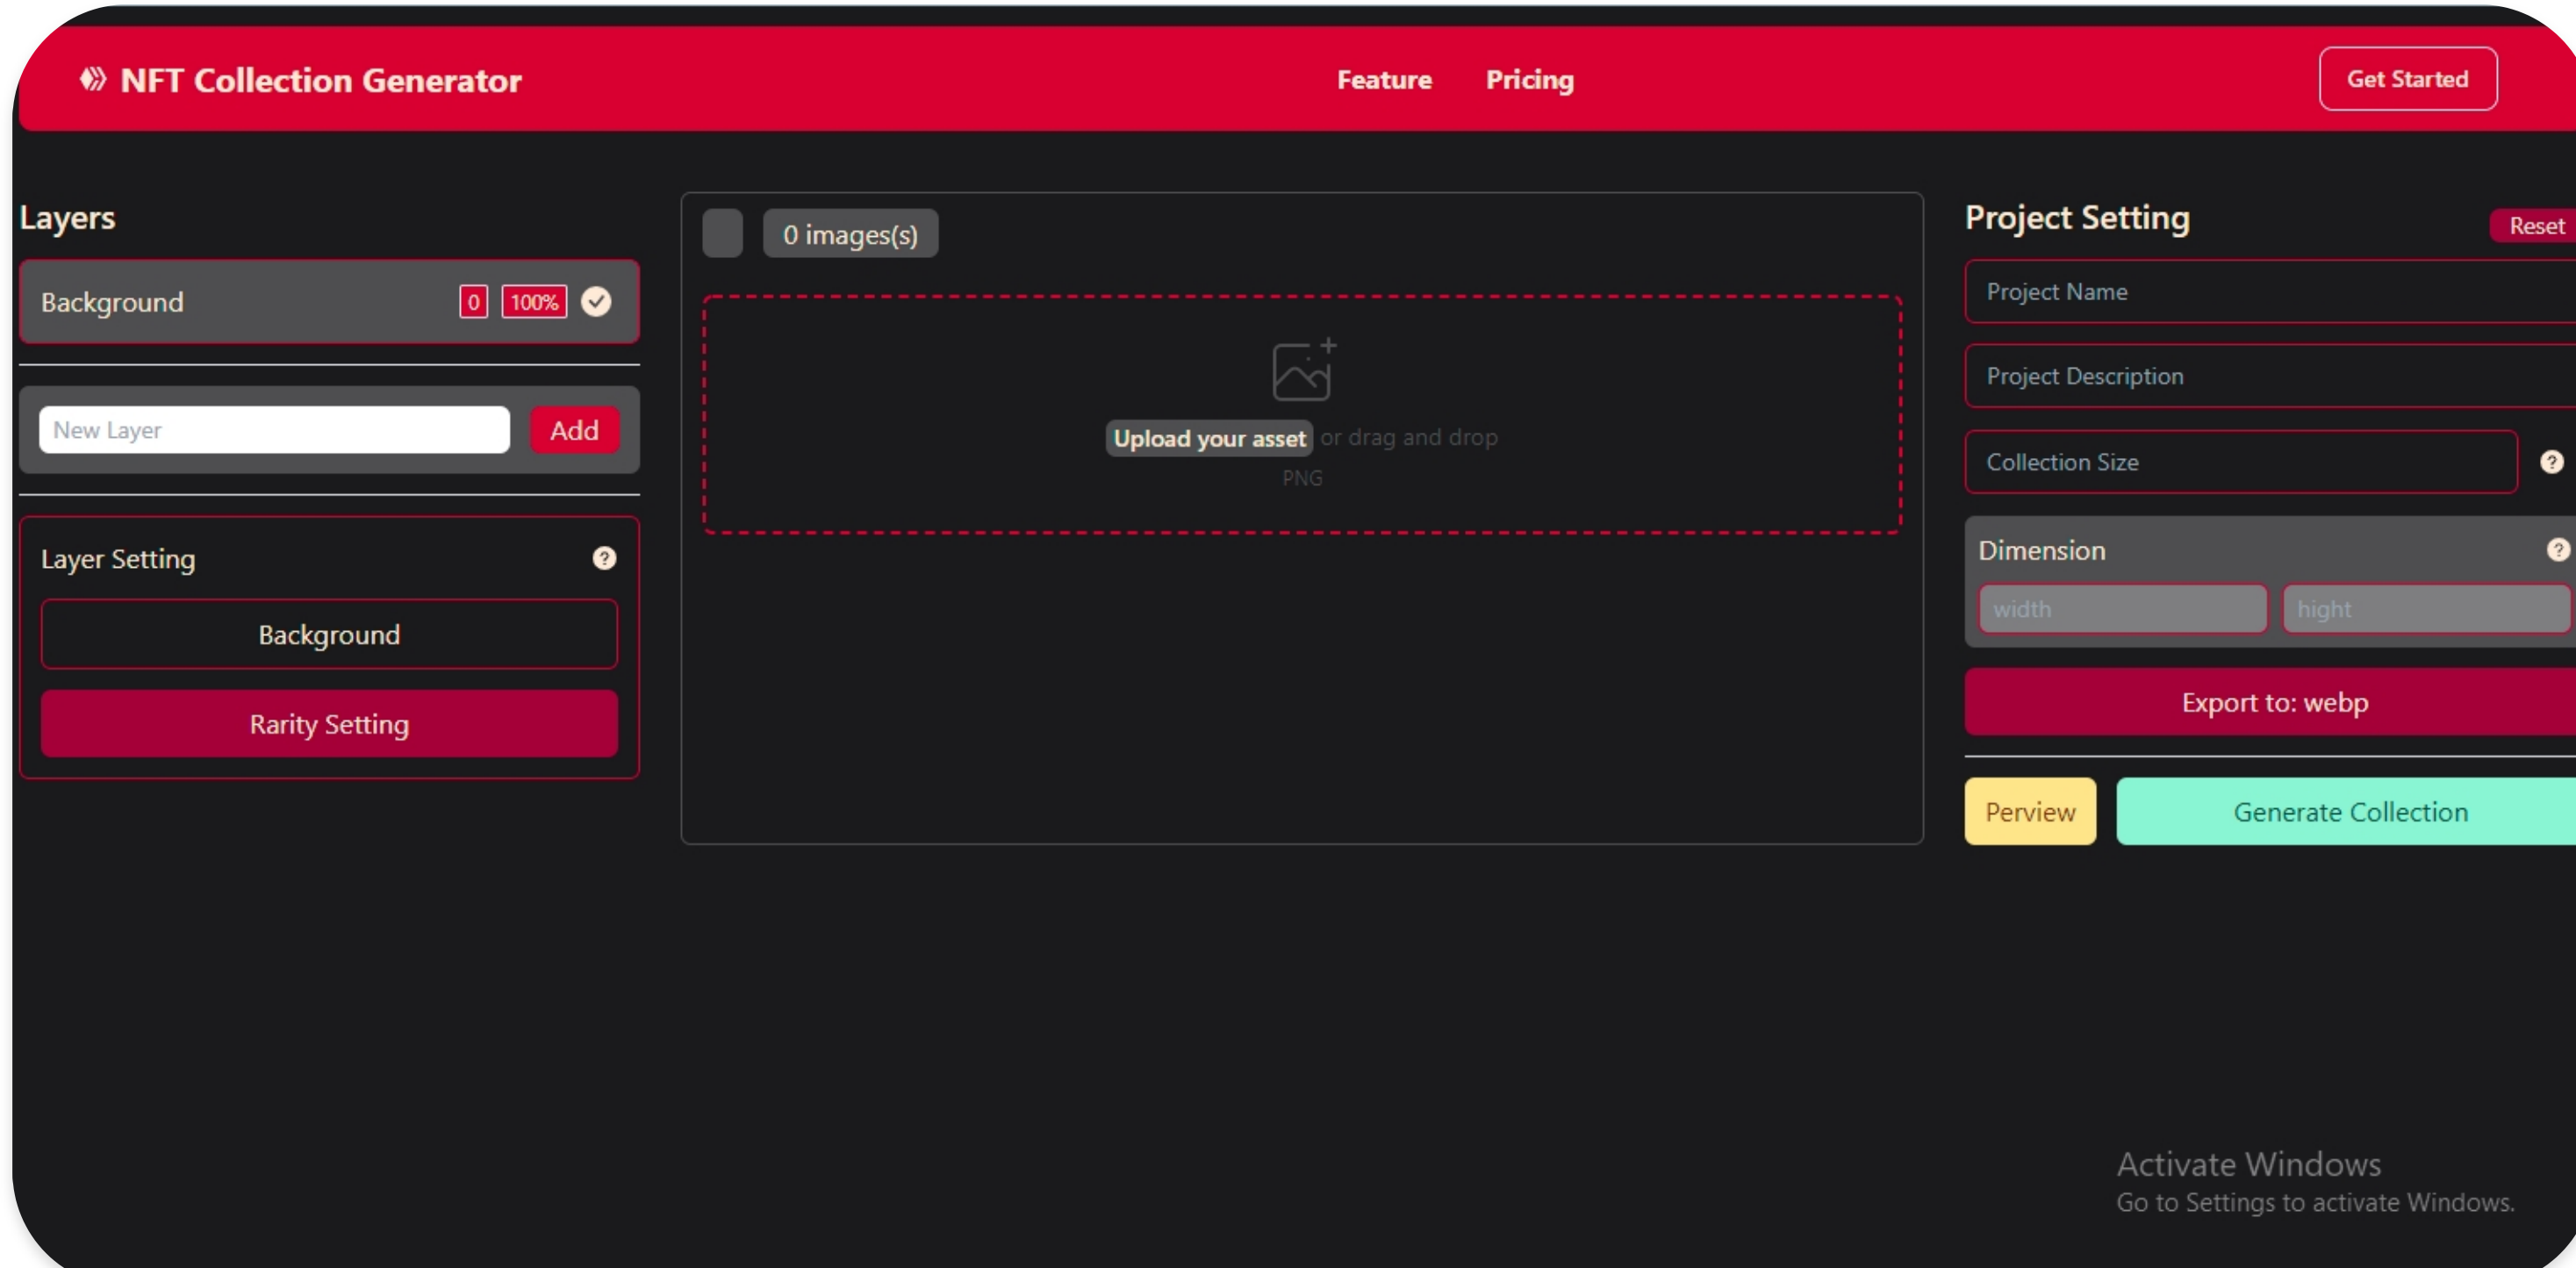

<https://monarch-app-society.netlify.app>

Monarch is a newly-released personal finance app dedicated to helping users achieve their financial goals where it is connected with Rinkiby Testnet.

<https://nft-art-collection-generator.netlify.app/>

An NFT Art Collection generator is software designed to generate unique NFTs arts using base art quickly. You can find an NFT generator online or download software for that purpose.

<https://thesinnersclub-nft.com>

The Sinners Club is on the Ethereum Blockchain. To build an ambitious community with the goal of helping students and entrepreneurs of their own community, by enjoying top-notch speculative and fun activities.

Reviews

Solidity Developer ERC721 for NFT collection

★★★★★ 5.00 Feb 25, 2022 - Apr 26, 2022

"Incredible experience working with Ahsan. He not only did what we asked for but he went further and added extra things to his tasks. Every single time we had a question he would take the time to explain it and make sure we understood it. We could not have asked for a better developer/partner. We tried to work with 10 developers and Ahsan is in another level in comparison with the others."

Looking for a NFT developer that can help with a NFT Airdrop

★★★★★ 5.00 Apr 27, 2022 - May 19, 2022

"Ahsan was a real pleasure to work with. He has an amazing work ethic, and when challenges arose, he kept at it until he found a solution, and with great speed."

He is very knowledgeable in his field. As a non-technical person, he had the patience to explain things to me when I didn't understand them. And I asked a lot of questions, for which I would like to thank him again.

Web3 Smart Contract Project

★★★★★ 5.00 Aug 16, 2022 - Aug 23, 2022

"Ahsan helped me do some smart contract work in Solidity and helped with transferring funds and tokens. This was really helpful, as it got me past a roadblock in the development of my project."

\$300.00

Solidity Smart Contract Code Review

★★★★★ 5.00 Jun 24, 2022 - Jul 1, 2022

"Ahsan was fantastic. He took direction well and was able to deliver more than what was asked. He is organized, friendly and the ultimate professional."

\$350.00
