Technological Teacher in state technological colleges and high schools in the fields of civil engineering, architecture and computer with over 10 years experience as a main job and several years of work experience in various fields such as civil engineering, digital graphic design, architectural and landscape design and computer programming. Has high skills in working with specialized 3D modeling softwares and great interest in programming and UI design.

Work Experience

Computer Programmer

self employed - Ardabil - Tabriz - Urmia

February 2015 to Present

I started learning Python programming in 2015. Since 2016, I have been working part-time on private team projects and coding and mostly for fun. I have skills in Python, Java, Android development and Kotlin, HTML and SQL. My python skill is better. I have also worked in the field of UI design because of my digital graphic skills.

Civil Engineer

self employed - Ardabil, Urmia and Tabriz

November 2011 to Present

After graduating in civil engineering, I am working part-time with private construction and architecture companies. I have high skills in engineering and CAD software like ETABS, SAP2000, SAFE, MATLAB, AutoCAD, 3D Studio Max, Rhinoceros, Blender, V-Ray, SOLIDWORKS and Microsoft office. I am working with AutoCAD and Rhinoceros since 2004.

Technological Teacher of Civil Engineering and Construction

Ministry of Education - Ardabil, Tabriz and Urmia

October 2011 to Present

Since 2011, Technological Teaching of Civil Engineering and Construction in state technological colleges and high schools is my main job. After graduating from high school in 2007, I received a scholarship from the Ministry of Education for a bachelor's degree in technological teacher of civil engineering, and at the same time I was on a probationary employment. After graduating with a fourth place in the class, I was officially hired by the Ministry of Education in August 2011. During these 15 years, as a technological teacher, I have taught technological and applied studies of civil engineering, architecture, and in some cases computer science in state technological colleges and high schools.

Digital Graphic Designer

self employed - Ardabil, Tabriz and Urmia

July 2005 to Present

I learned Adobe Photoshop in 2005. I have been working part-time in the field of digital graphics design since high school. I have skills in Adobe Photoshop, Adobe Illustrator, CorelDRAW, Adobe InDesign, Adobe Lightroom and Adobe After Effects software.

Landscaping Construction Manager and Designer

Fial Concrete Compony - Tabriz

August 2012 to March 2020

I worked with Fial Concrete Company as a landscaping construction manager and designer. Fial Concrete Company is one of the first and largest companies in the production of concrete pavers, precast concrete producers and construction of landscaping.

Education
