Summary

Senior Web Developer specializing in front end development. Experienced with all stages of the development cycle for dynamic web projects. Well-versed in numerous programming languages including JavaScript, CSS, HTML5, TypeScript, Java, C/C++. Strong background in project management and customer relations.

Education

Bachelor of Science: **Computer Information Systems** - 2014

Åbo Akademi University, Turku

Experience

Full-Stack Developer - 01/2019 to 03/2022

Evernetica, Canada

- Used the functionalities for writing code in HTML5, CSS, AngularJS, JavaScript, jQuery, Ajax, JSON and Bootstrap with MySQL database as the backend.
- Incorporated rxjs with Http Client Module for all asynchronous backend requests (GET, POST, PUT and DELETE).
- Developed a full stack application with express framework in node.js environment using body-parser, cookie-parser, cors and morgan modules.
- Work with senior developer to manage large, complex design projects for corporate clients.
- Complete detailed programming and development tasks for front end public and internal websites as well as challenging back-end server code.
- Worked on AWS features such as S3, EC2, ELB, Route, Lambda, NACL, Security groups.
- Worked on integrating enterprise applications with OAuth providers such as Ping, Gigya.
- Experienced in working on Docker hub, creating Docker images and handling multiple images primarily for middleware installations and domain configuration.

Full-Stack Developer - 09/2016 to 11/2018

Devico, Ukraine

- Work with senior developer to manage large, complex design projects for corporate clients.
- Complete detailed programming and development tasks for front end public and internal websites as well as challenging back-end server code.
- Created Single Page Applications with React using Hooks, Redux for stateful management; or using previous React state object plus lifecycle for component's internalize applications.
- Worked with REST APIs to get JSON data and using JavaScript Objects.
- Implementing AWS solutions using EC2, S3, RDS, EBS, Elastic Load Balancer, Auto-scaling groups.

- Strong understanding of different development methodologies such as Agile, Scrum, TDD and BDD.
- Worked on Express framework in Node.js to develop the logic code to get the data from the MongoDB and to bind the response data to the HTML5 using React and Angular.

Front-End Developer - 05/2014 to 06/2016

Odoo, Hong Kong

- Built dynamic and mobile responsible web pages using HTML5, CSS3, SASS, ECMA, JavaScript, Angular, Bootstrap, Tailwind CSS.
- Experience in building Single Page Application (SPA) using Model View Controller (MVC) frameworks such as React, Angular, Vue, NodeJS, Express.
- Good experience in Search Engine Optimization (SEO) techniques in order to develop web applications.
- Used Cypress and Jest for Unit testing.
- Involved in writing application-level code to interact with APIs, Web Services using Ajax, JSON and XML.
- Used Git, SVN for version controlling, error reporting and project management tools JIRA.
- Data visualizations tools like D3, Angular Fusion Charts and Chart.js.
- Responsible for creating the screens with table less design following W3C standards.

Skill Highlights

- | | |
|--------------------------|--------------------|
| • Project management | • Creative design |
| • Strong decision maker | • Active Listening |
| • Complex problem solver | • Self-awareness |
| • Respectfulness | • Time Management |

Language

English - Fluent

Certifications

Programming Languages: **JavaScript, TypeScript, PHP, HTML5, CSS, PHP, Java, C/C++.**

MERN STACK (certificate): **React, Angular, Vue, Express, NodeJS, NextJS, NestJS.**

PHP Framework (certificate): **Codeigniter, Laravel, Magento, Bagisto.**

Database: **MySQL, MongoDB, PostgreSQL, GraphQL.**
