About Me

A highly motivated, result-oriented full-stack developer, willing to go an extra mile to reach goals and learn new knowledge.

Over 8 years of experience in web and mobile development. Passionate about creating smart applications which can provide the best user experience and add the value to the product owner's company. Especially, over 4 years of experience in blockchain development: CEX and DEX trade, Swap, 4 types of tokens such as utility, payment, security and stable tokens, Defi tokens, NFTs and asset-backed tokens and dapps. Good collaboration and communication with team members and clients.

I am seeking actively a challenging position in a reputable software company.

Experience

➔ Senior Blockchain Developer

Upwork · Freelance
Escondido, United States
May 2021 — Present

- Reviewed client requirement, wireframes, and designs for technical feasibility
- Created and maintained supporting documentation for project
