

Artin Faghanzadeh Lakeh

SOFTWARE ENGINEER - GRAPHIC DESIGNER

Profile

I am an accomplished software developer with expertise in back-end development using Python and Windows app development in C++. Over the past 4 years, I have successfully created data analysis and machine learning applications. Additionally, I possess 2 years of hands-on experience in robotics, excelling in both electronic design with Altium and programming with C and Arduino. My versatile skills extend to graphic design, where I have received recognition for my logo and poster designs since 2020.

Employment History

Software Development, Freelance Working, Toronto

FEBRUARY 2021 – PRESENT
