To introduce our new food launch, we have created a poster with a simple and elegant design. As the launch coincided with the Gong Xi Fa Cai event, we chose a classic and festive theme of red and gold.

The poster design aims to capture the audience's attention and showcase our new product in an appealing and distinctive way. We chose the color red to signify good luck and happiness, while the gold color represents prosperity and success.

Overall, the poster is meant to create a positive and memorable impression of our new food launch among the audience. We hope that the theme and design will resonate with the

Semi Carbonic Maceration
Flavor Boost

BALI HONEY

Origin: Bali, Kintamani
Variety: S795, Kuritika
Processing: Semi Carbonic Maceration
Flavour Notes: Orange, Black Tea, Chocolate, Silky Body

For Honey process, a mix of S795 and Kuritika coffee varieties cherries, passes through the floating tank, sorted, cased, and only ripened cherries are selected, pulsed and transferred into enclosed sack with addition of ethanol gas are pump into the sack (sealed), under controlled humidity and temperature condition, fermentation process take up to 72hrs in total. These coffee are also available in natural processed.

ARGO WAYANG

Origin: Nias, Wayang, Nias - I, II
Variety: Nias
Processing: Washed
Cupping Notes: Sweet Astringent Brown Sugar, Orange, Tannin, Smooth and Silky Body with Medium Acidity

Rival wasn't born in coffee farmer family, it all started when Rival and his family wanted to take part in a coffee cultivation program initiated by the government. While the likes, the friend has visited many coffee farmers has decide to plant vegetable instead. Despite that, Rival and his family carried on producing coffee on their little plots and lands. During the first 7 (seven) years of his journey, Rival had encountered many obstacles in introducing all about coffee to people around where he lives. His young age in other areas cause for go ahead. Through his working as a coffee trader, he even introduced coffee door-to-door. His coffee plants maintenance skill is very detailed. Starting from clearing the shade, the drying process to the final picking process, he's also very involved to keep on learning because about coffee processing so that he can produce only the best and high value coffee. For him, that's the only way to increase the marketing value of local coffee and to encourage and inspire around him to go back to cultivating coffee. Rival also volunteered to give out free education about coffee processing for people about him.
