OBJECTIVE

Over the last 6 years, I have done extensive study of graphic design and I have immense knowledge in this regard. I design all kinds of print elements and also eye-catching designs for social media that will definitely attract your clients. Experienced UX/UI designer and web developer with excellent skills in: Ux design , Ui design , Mobile app design , Website template design, Banner, Info-graphic, Illustrations , Ecommerce Website development etc. I work diligently to complete projects to meet deadlines, Great communicator, I value and maintaining my relationship with clients - my most important people! I provide value feedback to help client achieve their needs and design their projects in the smartest, most efficient way. I am a hardworking, reliable freelance website and mobile design and development. I love being in line of work because I am passionate and energetic about technology and design, i like doing freelance work because it gives me the freedom to choose when and how often i work. I can help to build online website and I have great experience in managing all aspect of web, mobile design and development.

PROJECTS

Website design and Development
Project description
This is a NFT Website Redesign and Development with Minting Integration for GOLFDAO.
The project entails some sections like,
HOME: This is the section that talk little about GOLFDAO and it also display their NFT Card at the right corner of the website.
NFT's: This is a section that show all different type of NFT Cards that they want people to mint.
ROADMAP: This section talk all about their present and future plans, and all what make this project the best out of all.

The most amazon part of this project is that this website is completely develop from REACT and it's like an Animation display Website.

TESTIMONIES
After the completion of this website my client really love the website and he gave me good review and five star on my Fiverr Account.

Graphics design
NFT Flyer design for KFS company USA base.
Purpose of the the flyer is for the awareness of the NFTs to the environment people.

Flyer design
Flyer design for RADON GLOBAL ENTERPRISES.This project was design for the advertisement of the company.
