Abubakr Hoseini

Web designer and programmer

When I was a teenager, I was interested in designing and programming, and today I have tried to have a combination of them in my work. I am very interested in solving problems and learning, I have a lot of patience in solving problems. I have been in the field of website design and graphic design for 3 years and I am working professionally in this field. I have been working as a freelancer for about 1 year and I have registered excellent and reliable examples of work in my resume.
