max.stewart.phd97@gmail.com

46Linden Street,  
Riverdale, New York.

## Language

- English
- Germany (basic)
- Spain (basic)

## professional certifications

- Project Management Professional (PMP)
- Certified Analytics Professional (CAP)
- Google Analytics Individual Qualification (GAIQ)

## Experience

### Front end Developer

Manta

April 2018 - December 2020

Well, Speaking of my past project, only frontend part was for me.

- 1 I've been working and studying new skills that might be surprising to all of client in short time, so that everybody loves very.
- 2 Implemented interactive features and animations to enhance overall user engagement and visual appeal
- 3 Developed responsive and user-friendly web applications using HTML, CSS, and JavaScript.
- 4 Collaborated with UI/UX designers to implement design vision and improve user experience
- 5 Optimized website performance by implementing front-end best practices and optimizing code

### Backend developer

Zippia

January 2021 - January 2022

Developed and maintained RESTful APIs using Node.js and Express framework  
Optimized database queries and schema designs for improved performance and scalability  
Collaborated with front-end developers to integrate server-side logic with user-facing applications.

### Full Stack developer

Zippia

February 2022 - February 2024

Proficient in both front-end and back-end development technologies, including HTML, CSS, JavaScript, Node.js, and React  
Designed and implemented RESTful APIs for seamless communication between front-end and back-end systems  
Collaborated with cross-functional teams to deliver high-quality, user-centric web applications within tight deadlines  
Conducted code reviews, identified areas of improvement, and implemented best practices to ensure optimal performance and scalability.

## Education

### Brigham Young University

bachelor of science  
March 2014 - April 2018

Brigham Young University  
Provo, UT · Private, non-profit · 4-year

Pursued a Bachelor's degree in Computer Science with a focus on RESTful API development.

Completed coursework in designing, building, and testing RESTful APIs using various programming languages and frameworks.

Developed hands-on experience with creating endpoints, handling different HTTP methods, and integrating API functions into web applications.

Specialized in the MERN (MongoDB, Express, React, Node.js) stack during academic studies. Gained proficiency in building full-stack web applications using MERN technologies.

Completed projects demonstrating skills in data handling with MongoDB, server-side development with Node.js and Express, and dynamic client-side interfaces with React.
