

NGUYEN LE PHUOC HUNG

SOFTWARE ENGINEER

Thanh Khe, Da Nang

Phone: +84 918456439 | Mail: phuochungdn1999@gmail.com | Skype: phuochungdn1999

SUMMARY

Blockchain and Backend developer with 2 years of experience in building Solidity smart contracts for DEFI, GameFi, Bridge, IDO. Having experience in working directly with Product Owner or BRSE. High teamwork spirit and can connect people in a team.

PERSONAL INFORMATION

Full name	Nguyen Le Phuoc Hung	Gender	Male
First name	Hung	Last name	Nguyen Le Phuoc
D.O.B	1999	Nationality	Vietnamese

OVERVIEW

Professional Summary:

- Total years of experience in Blockchain and Backend Developer: 2 years experience in Blockchain development (Solidity, Coswasm, Subgraph) and 2 years experience on backend, web development (Nodejs Express and NestJs, Golang, Mysql, MongoDB, Reactjs, Docker).
- Main stack: Solidity, Nodejs, Typescript, Subgraph.

Impact summary:

- Build and maintain Blockchain application
- Discuss and find solutions to improve security and speed for the Blockchain application and smart contract.
- Suggest new technology to improve the application
- Be able to work with different Blockchain(Solidity, Rust, Move, Coswasm), Backend (Nodejs, Typescript, Java, Golang), Database (MongoSB, Mysql) and other infra for Blockchain (Subgraph, Infura, Moralis)

Provisioning:

- Technical leader Blockchain team.
- Join Defi project with high total value lock.
- Create a new protocol and integrate it to applications .
- Reduce the limitation of Blockchain
- Solidity: 2 Years
- Nodejs: 2 Years
- Mongodb, Mysql: 2 years
- Java: 1 Year

- Golang: 3 months

EDUCATION

2017 – 2022	Da Nang University of Science and Technology Major: Information Technology
-------------	--

IT TECHNICAL SKILLS

- Blockchain: EVM Blockchain, Solidity, Coswasm, Move, Subgraph, Full node
- Backend: NodeJs, Golang, Java
- Frontend: Reactjs
- Database: Mysql, MongoDB
- Familiar with JIRA, Trello, Jmeter, Git, Clickup, Google Spreadsheet and Scrum.
- Have experience with audit reports.
- Knowledge about Docker, Kubernetes.

WORK EXPERIENCE

Company	Techchain Software at Da Nang
Position	Blockchain and Backend Developer
Time	Nov 2021 - Present
Main responsibilities	<ul style="list-style-type: none">- Analyze requirements, discuss with PMs and Leaders.- Develop smart contracts for projects.- Write documents and handover for partners.- Research and apply new technology to projects.- Support Frontend and Backend to interact with Blockchain.- Analyze the flow of a project from Blockchain to Frontend to Backend.- Fix risk reported by the audit team.- With the maintenance project, read the handover and document of the previous team to know how to fix bugs and develop new functions.- Develop or maintain the Backend
Company	BAP Software
Position	Blockchain and Backend Developer
Time	Apr 2021 – Sep 2021
Main responsibilities	<ul style="list-style-type: none">- Developing smart contracts for the project.- Work with BRSE to discuss project information.

- Research about new technology and Blockchain networks.
- Support Frontend and Backend to interact with smart contracts.
- Write tests for an existing smart contract.

PROJECTS

Runnow

Customer	Viet Nam
Link	https://www.runnow.io/
Time	8/2022 – present
Description	Move to earn project with applications on the mobile and website. Mobile is used to run and earn rewards. Website is the marketplace for users to sell their NFT like boxes, sneakers,...
Team size	10 members
My position	Blockchain developer
My responsibilities	<ul style="list-style-type: none"> - Analyze the flow of the project. - Update smart contract and write test for the new update. - Discuss issues with the leader and product owner. - Support Frontend and Backend. - Join the deployment team for deploying products. - Support PM to manage task of members in the team

GEMUNI

Customer	Viet Nam
Link	https://www.gemuni.io/
Time	5/2022 – 7/2022
Description	The World's First Multi-Integrated Ecosystem for NFT Blockchain Games
Team size	10 members
My position	Blockchain and Backend developer
My responsibilities	<ul style="list-style-type: none"> - Apply DEX and Lottery smart contracts for the system. - Building subgraph for the DEX. - Build the backend for the lottery. - Build a full node ETH.

S-ONE

Customer	Japan
-----------------	-------

Link	https://play.google.com/store/apps/details?id=sone.finance.wallet&hl=en_US&gl=US&pli=1
Time	12/2021 – 2/2022
Description	Store, Transfer, Exchange and Manage your crypto assets in the easiest one-step Wallet.
Team size	5 members
My position	Blockchain and Backend developer
My responsibilities	<ul style="list-style-type: none"> – Read and research about the document and handover file to maintain the project. – Maintain and fix bugs for the backend. – Build testnet for production and staging environment. – Work together with the partner to discuss the issue of the project.

YFIAG – NFT Marketplace

Customer	US
Link	https://nft.yearnagnostic.finance/marketplace/
Time	3/2022 – 5/2022
Description	The digital marketplace for crypto collectibles and non-fungible tokens (NFTs). Create, Buy, Sell, and discover exclusive digital items.
Team size	9 members
My position	Blockchain developer
My responsibilities	<ul style="list-style-type: none"> – Analyze requirements. – Develop smart contracts for NFT, Launchpad and Bridge NFT. – Integrating smart contract for Frontend and Backend. – Discuss about the issue of the project.

YFIAG – DEX

Customer	US
Link	https://app.yearnagnostic.finance/
Time	11/2021 – 1/2022
Description	A Cross-Chain Aggregator Platform for DeFi, NFT and Metaverse Fueling Global Adoption. YearnAgnostic Finance aims to support projects deployed on all chains, focusing on simplicity, user experience, security and privacy.
Team size	5 members

My position	Blockchain and Backend developer
My responsibilities	<ul style="list-style-type: none"> – Handover from an old member. – Develop smart contract for new Vault and redeploy for old vault. – Work with Devop to deploy the project. – Fix bugs for the Cross-chain token and Diamond hand backend.

DAOLaunch

Customer	Japan
Link	https://daolaunch.net/
Time	4/2021 – 9/2021
Description	Future of new venture funding. Support the projects for growth, community, and user engagement for the long term.
Team size	8 members
My position	Blockchain developer
My responsibilities	<ul style="list-style-type: none"> – Research about new technology. – Support Frontend and Backend. – Work with BRSE to do tasks from Product owners. – Support coding job to detect the ATH ROI of the token in the project.

Horse racing NFT

Customer	Japan
Link	None
Time	8/2021 – 9/2021
Description	Horse racing game with NFT
Team size	5 members
My position	Blockchain and Backend developer
My responsibilities	<ul style="list-style-type: none"> – Write the smart contract for NFT. – Coding cronjob to detect minting events from NFT. – Support QC to use Metamask and testing for minting NFT.

GameFi play to earn

Customer	Viet Nam
Link	None
Time	11/2021 – 12/2021

Description	Game play to earn. Users buy NFT and use that NFT to play. Click to earn is easy to play and users can get profit from them.
Team size	4 members
My position	Blockchain and Backend developer
My responsibilities	<ul style="list-style-type: none"> – Analyze requirements. – Develop smart contracts for NFT and Game. – Develop backend.

DEFI project

Customer	Viet Nam
Link	None
Time	3/2022 – 5/2022
Description	Clone ApeSwap and integrate it to our system.
Team size	3 members
My position	Blockchain developer
My responsibilities	<ul style="list-style-type: none"> – Support building DEX for the system. – Deploy farming, staking and launchpad smart contract. – Develop new features and fix bugs for the frontend.
