BACKGROUND

CTO

buenapeople, October 2018 - January 2020

Initially, I worked as a developer, I built the entire web, and I hired full-stack developers and a designer ux designer , I was the leader of all them.

Front-end developer

Freelancer, july 2022 - Present

I translate a Figma file into code, last months I am working on some web3 landing pages.

Freelancer Front-end developer

Starship Agency, February 2021 - July 2022

Cofounder and web developer for Starship Agency, we create amazing websites, landing pages, consulting and ecommerce

Freelancer Stores - Shopify developer

Freelancer, July 2020 - Present

I am a Shopify partner developer with experience creating stores for international and local customers, modifying sections with liquid and CSS, and installing apps such as live shopping and payment processors.

Android developer

Bitmall, January 2017 - August 2017

I was android developer to build the gig economy app
