#### Objective:

To obtain a challenging full-stack web developer position that allows me to utilize my skills and experience in creating dynamic and responsive web applications.

#### Summary:

I am a highly skilled and motivated full-stack web developer with 4 years of experience in designing, developing, and maintaining web applications. My expertise lies in both front-end and back-end development, and I possess a deep understanding of web development principles, languages, and frameworks.

#### Skills:

Proficient in HTML, CSS, JavaScript, PHP, and SQL  
Experience with front-end frameworks such as React, Angular, and Vue  
Familiarity with back-end frameworks such as Laravel, Django, and Ruby on Rails  
Strong understanding of web development principles and best practices  
Ability to design, develop, and maintain web applications from start to finish  
Experience with version control systems such as Git

#### Experience:

Full-Stack Web Developer, Fast Cash 4 Scrap Car, Brisbane, Queensland, Australia  
3 years

Developed custom web applications using HTML, CSS, JavaScript, PHP, and SQL  
Utilized front-end frameworks such as React, Angular, and Vue to develop highly responsive and dynamic user interfaces  
Integrated back-end frameworks such as Laravel, Django, and Ruby on Rails to create scalable and secure web applications  
Designed and implemented database structures using SQL and NoSQL databases  
Collaborated with team members to develop and maintain web applications, ensuring they meet project specifications and deadlines  
Conducted regular code reviews to maintain code quality and ensure adherence to best practices  
Optimized web applications for performance and scalability  
Maintained version control using Git, ensuring smooth collaboration with team members

#### Education:

Bachelor of Computer Science, Islamic Azad University, Rey, Tehran, Iran, 5 years

#### Certifications:

Certified Full-Stack Web Developer, GKV (Global Knowledge), 1 year
