Education

The University of Tokyo - Bachelor

Computer Science - High Communication skill, Rich experience of major, High understanding

September 2012 - July 2015

Experience

Full stack developer

CANAVIGIA

September 2021 - April 2022

Ability to lead cross-functional team to realize the vision, taking into account business and technical requirements, constraints such as time, cost, and architecture tradeoffs. Highly organized, and efficient in a fast-paced, ever changing environments, able to prioritize effectively to accomplish objectives.

Blockchain developer & Project manager

NipponFWD

July 2017 - June 2021

There I built so many **smart contract**s using **ERC-1115**, **ERC-20** and **ERC-721** custom tokens which will work on **Ethereum**, **Binance Smart Chain** and I was responsible for building **NFT Marketplace** and created custom tokens using openzepplin, implemented MetaMask, Torus and other wallets to increase user experience.

Full stack developer

4K-SOFT

September 2015 - June 2017

Worked with colleagues to set **principles** and **patterns** on the **front-end** and **back-end**, **design**, **develop**, **troubleshoot**, **debug**, **test**, and **ensure** browser compatibility. **Implemented** professional code using **PHP Framework**, **JavaScript Framework**, **CSS Framework**, and **Database Platform**.

Also **consulted** regularly with clients on **project status**, **proposals**, and **technical issues**.
