Summary

Starting from 2016, I narrowed down my various works and experiences to a passion for visual works (graphics, photography, and filmmaking) and concentrated in this specific domain where all of my works in the following years support this enthusiasm and soul confirm my expertise.

In these five years I gained valuable experiences from UI/UX design to further professional photography and filmmaking. I always follow an on-demand learning attitude and welcome any new challenge as an opportunity to push my limits and upgrade my skills.

I see myself as a perfectionist designer and photographer who is passionate about his work and takes every detail into account to come up with superb artwork.

In the following I will describe some of my experiences in the field.

I am honored to have a chance to both contribute and learn from inspiring Isfahan's Creative Morning (a non profit worldwide organization) team, starting from 2018 up until now. This collaborative experience rewarded me the great vision of teamwork and broadened my knowledge in the domain of visual graphics and art. During this time, I led the visual and graphic section of the team and was in charge of visual representation of the branch.

I also launched a business named Picco Studio in the year of 2019, specialized in the fields of filmmaking, advertising, and industrial photography. By the year 2020 I decided to leave the brand however it still continues its path and is recognized as an active business in the market. After this, I came up with my second studio where I started Rasha Studio, focused on advertising and digital marketing and I see a bright future in the following years for this brand.

Last but not least, is my collaboration with enterprise companies of Isfahan television channel and Blue-White coworking space in 2021. In Isfahan TV station I was the cameraman and filmed several programs of the channel and did various professional photography for Blue-White company.

Experience

Product Designer

Virgool | ویرگول

May 2022 - Present (10 months)

Professional Photographer

Self-employed

2016 - Present (7 years)
