EXPERIENCE

2022.1 - Now

MyMeta Company

blockchain development lead(Part Time)

- Developed smart contract on Polygon platform.
- Integrate with Unity and smart contract.

2020.2 - 2021.10

Hashtaag Team

solidity & fullstack developer(Full Time)

- Worked on TypeScript + web3 + Solidity full stack project.
- Built one brand new chrome extension to swap tokens between various networks. React is used for front-end.

2018.11 - 2020.1

Asphalt & Concret Team

Senior Blockchain Developer (Full Time)

- Developed 3 NFT games using React and Smart contract. Created interaction between front-end and smart contract using web3.js

2015.2 - 2018.8

Smoothworks Team

blockchain engineer(Full Time)

- Using the solidity framework features, optimized the smart contract program and boosted performance by 20%.
- Wrote and developed the smart contracts on solidity and platform-Ethereum.
- Developed 3 NFT games using React and Smart contract. Created interaction between front-end and smart contract using web3.js

2014.12 - 2015.1

HindenBug Team

blockchain developer(Full Time)

- Developing web-based applications in ReactJS and storing the transactions in ethereum Blockchain.
- Developing tokens with wonderful tokenomics for NFT game
