# Masood Hazrati

Javascript Developer (VUE.JS)

09190164370   info@masoudhz.ir   https://www.linkedin.com/in/masood-hazrati/

## SUMMARY

Highly skilled and experienced JavaScript developer with a strong expertise in Vue.js framework. Proficient in building responsive, scalable, and maintainable web applications using Vue.js, and Nuxt. Strong understanding of software development principles, patterns, and best practices. Proven ability to work independently and collaboratively as part of a team.Seeking new role to utilize expertise in Vue, JavaScript, HTML/CSS, and web development best practices.

## EXPERIENCE

### Senior Front-End Developer
BINJ

- Developed and maintained multiple high-profile web applications using Vue.js and Nuxt, resulting in improved user engagement and increased customer satisfaction.
  Collaborated with cross-functional teams to design and implement new features, ensuring seamless integration with existing systems and timely delivery.
  Mentored junior developers and provided technical guidance to improve their skills and knowledge in Vue.js and related technologies.
  Participated in code reviews and ensured that all solutions were aligned with industry standards and best practices.

### Front-End Developer
SISHEMI

- Built and maintained several complex web applications using Vue.js, and Nuxt resulting in increased productivity and reduced costs.
  Worked closely with the design team to create visually appealing and user-friendly interfaces, ensuring a seamless user experience across various devices and browsers.
  Collaborated with the backend team to integrate RESTful APIs and ensure data synchronization between the frontend and backend.
  Participated in daily stand-up meetings to discuss project progress, share knowledge, and plan tasks.

### Front-End Developer
Rahkar Ghostaran

- Developed and optimized front-end architecture in Vue.js for dynamic and high-volume web applications.
  Collaborated with backend developers to integrate RESTful APIs and improve user experience.
  Implemented TDD using Jest to ensure the reliability and performance of software.

### Full-stack Developer
Nkit

- Developed and maintained web applications using PHP, Laravel, Vue.js, and other front-end technologiesDesigned and implemented RESTful APIs using LaravelCollaborated with team members to deliver high-quality software solutions in an agile environmentConducted code reviews and provided feedback to team membersWrote and maintained unit tests and integration tests using PHPUnitManaged databases using tools like MySQL and EloquentWorked with server administration tools like Nginx and DockerParticipated in continuous learning and professional development activities to stay up-to-date with the latest technologies and best practices

## SKILLS

What are you most proud of?

- Vue.js, Vuex, Vue Router
- JavaScript, TypeScript, HTML5, CSS3
- Node.js, Express.js, RESTful APIs
- Agile methodologies, Scrum framework
- Git, GitHub, JIRA
- Strong understanding of software development principles, patterns, and best practices
- GIT version control
- RESTful API integration
- Test-driven development (TDD)
- Project management
- Unit Testing (Jest, Mocha)
- Responsive Design
- Cross-browser compatibility

## LANGUAGES

English  (intermediate)                Persian  (Advance)                Turkish  (Beginner)

## PROJECTS

### https://app.binj.com/

As a front-end developer for a social project, I leveraged my strong skills in Vue.js to create a dynamic and engaging user experience. By collaborating closely with designers and back-end developers, I was able to implement responsive and intuitive UI components that made it easy for users to interact with the platform. I have experience working with Vue.js and other front-end technologies like HTML, CSS, and JavaScript, as well as with RESTful API design principles and integrating APIs with Vue.js. I am passionate about creating user-centric interfaces that prioritize accessibility and usability, and I am committed to staying up-to-date with the latest front-end development trends and best practices.

### https://binj.com/

As a front-end developer for a web animation project, I used Vue.js and GSAP to create engaging animations and transitions. I have experience with HTML, CSS, and JavaScript, and a passion for creating immersive user experiences. I keep up with the latest front-end trends and am excited to continue exploring web animation.

### http://sishemi.com/

I used Nuxt.js, Vue.js, GSAP, and Three.js to create a visually stunning and highly interactive user experience. With extensive experience in front-end development, animation, and 3D modeling, I'm passionate about creating immersive and intuitive user experiences. I keep up with the latest trends and best practices and am excited to continue exploring new possibilities in 3D modeling and animation on the web.
