Steven Hoskovec

Senior Frontend Developer With Strong shopify skill

Steven is a Frontend developer with over a 6 years of experience in Frontend & shopify.
He is proficient in translating designs into high-quality code and implementing highly-responsive user interface components with React concepts. He is keenly interested in algorithm-level efficiency and his primary focus is on web and shopify development. He is keen on writing clean and reusable code using best practices. He loves learning about anything, especially if it make him better at his craft. He has worked with tech agenies for over a 5 years, helping to build technology-based businesses from the ground up. He is personable, communicates extremely well, and is very punctual.

💻 WORK EXPERIENCE

Senior Frontend Developer, FlyLine

New York, United States • February 2019 - October 2022

- Built a front-end widget that is added as a single external script to an HTML page but works as a big library using vanilla JavaScript and jQuery.
- Created a feature to present HTML-based pages in a full-screen auto-generated presentation with advanced user controls and layout options.
- Wrote advanced jQuery DataTables plugins and UX handling.
- Developed a JavaScript-based image annotation app that runs on desktop and web; it also allows for re-editable PNGs/JPGs by storing vector annotation data in the image binary.
- Developed a React, React hook, and Material UI front-end web application for a real estate tax calculation.
- Worked with nested iframes, asynchronous loading of ads, and sizing/scaling issues for mobile, and error-handling.
- Wrote a performance monitoring library to use performance counters for measuring front-end delivery and back-end service responses.
- Converted a traditional web application to a single-page application using AJAX and a state management layer in JavaScript.
- **Developed custom websites using PHP, MySQL,and JavaScript.**

Shopfiy developer, Contra Collective Agency

Los Angeles, California, United States • August 2016 - December 2018

- Converted Shopify store design from figma&psd design.
- Integrated the apps with the stores.
- Designed and implemented custom business logic layer functions.
- Modified and fixed the existing stores.
- Acted as a development lead of a small and efficient virtual team.
- Made key architectural decisions and led the implementation.
- Utilized modular design to deliver a stable, powerful, ever-growing final store.

🏛 EDUCATION

Computer Engineering

May 2011 - March 2014
