key skills

Language skills   Russian- Native

Skills   Responsibility   Honesty   Learnability   Stress tolerance

Additional Information

About me   At school, he participated in scientific conferences with the ARmuseum project (https://
www.youtube.com/watch?v=CgsEoEkZP3s https://profil.mos.ru/inj/proekty/armuseum.html) The
essence of the project was to apply augmented reality to increase the information content of the
museum. In this regard, I have experience in presenting projects to the public. I also have experience in
working with office equipment and computers: from cleaning to reinstalling the OS, installing software
of a different spectrum. I worked as a courier at the Samokat company, where there are strict
requirements for statistics (accounting for the time spent in the warehouse, orders completed per hour,
time to the address and return to the warehouse). Among other things, he worked in the field of
freelancing. Developed a website for Tello Russia
(https://tellorussia.ru)
