SUMMARY

Software engineer specializing in back-end development and blockchain integrations. Currently pursuing a Bachelor's Degree in Computer Science, with a background in personal projects utilizing Python and blockchain services, along with a foundational knowledge in smart contract development using Solidity. I'm seeking internship opportunities to gain practical industry experience, and contribute to creating innovative solutions.

EDUCATION

University of The People (UoPeople) - USA (Online).

Bachelor's Degree of Applied Computer Science.

GPA 3.11/4.0 - June 2023 – Present

- Relevant courses: Data Structures and Algorithms, Programming (Python), Software Engineering, Databases, Operating Systems, Computer Networks, Theory of Computation, Distributed Computing, Web Development, and Information Security.

CERTIFICATIONS

• Blockchain Fundamentals

University at Buffalo (Coursera) - 06/2023 to 11/2024

• Decentralized Finance – The Future of Finance

Duke University (Coursera) - 01/2024 to 03/2024

• Back-end Development with Python/Django/PostgreSQL

Meta (Coursera) - 04/2024 to 09/2024

• NFT Development

101 Blockchains – 09/2024 to 09/2024

• Solidity Smart Contracts (Fundamentals)

Cyfrin Updrafts – 09/2024 – Currently

SKILLS

Programming Languages: Python and Solidity.

Frameworks and Libraries: Django, Flask, and PostgreSQL - (Basic)

Web Development: Back-end Development, API RESTful, Database Management, Object-Oriented Programming (OOP), Git Version Control.

Blockchain Technologies: Smart Contracts (EVM) and Remix IDE – (Basic).

Soft Skills: Teamwork, Problem Solving, Time Management, Critical Thinking, Attention to Detail, Self Learning, Flexibility, Organizational Skills, Communication, Responsibility, Analytical Skills.
