HAMED VOJDANI

Technical lead and Devops manager at IT-Street GmbH

📞 +98 9192771355   @ hamed-vojdani@hotmail.com   🔗 https://www.linkedin.com/in/hamed-vojdani/

📍 Iran, Karaj

SUMMARY

Being in the industry about a decade, I have learnt that the only thing that matters in your team is collaboration and mutual respect. I have started programming by working with Microsoft Technologies since 2007, ranging from .Net Framework 1.1 to dotnet 8 and have always been passionate about web and enterprise application, so I have done quite an effort to learn and use them to build robust, and reliable software. Being innovative, having a never-give-up attitude, learning cutting-edge technologies and employing them, being an individual problem solver and simultaneously a team player.

EXPERIENCE

Technical lead and Devops manager

IT-Street GmbH - Crowdswap.org

📅 03/2023 - Present   📍 Germany

My first experience in blockchain area.

- Gained first hands-on experience in the blockchain area.
- Increased test coverage, improved DevOps routines, and enhanced project infrastructure.
- Wrote and deployed smart contracts.
- Developed backend services using Python and Node.js (NestJS).
- Worked with Ollama and explored AI libraries and tools.
- Entered the MCP (Model Context Protocol) ecosystem and built AI-based integrations.
- Contributed regularly to both infrastructure and development tasks.
