## SUMMARY

---

Motivated and experienced Web3 & Full Stack Engineer with over 5 years of experience developing new and innovative projects, helping companies to meet and exceed projected expectations. Proven in fast-paced environments, ensuring timely, budget-friendly solutions. I am proficient in JavaScript, Go, Python Frameworks, and Databases. Ready to drive success in a growing business.

## EXPERIENCE

---

### Canbase

Mar 2024 – Feb 2025

Full Stack & Mobile Developer

Remote

- Developed a responsive web application that significantly improved user experience, resulting in a 20% increase in mobile traffic.
- Revamped the design and layout, achieving a 20% faster loading time and a more visually appealing interface.
- Optimized loading speeds, achieving a 25% improvement in initial page load times and better visibility on search engines.
- Implemented interactive features in the mobile app, increasing user engagement by 25% and fostering community interaction.
- Created a cross-platform mobile app that accelerated deployment to both iOS and Android, cutting down release times by 20%.

### Job Wizard

Oct 2022 - Dec 2023

Full Stack Developer

Remote

- Enhanced extension loading speed by 20%, optimizing performance and user satisfaction.
- Integrated advanced algorithms to dynamically detect and autofill job application fields, boosting accuracy by 15%.
- Implemented continuous integration and deployment (CI/CD) pipelines to automate testing and deployment processes, reducing manual errors by 20%.

### Parasol Finance

Jul 2021 - Aug 2022

Web3 & Full Stack Developer

Remote

- Built interactive web platforms with a focus on enhancing customer experience, leading to a 20% increase in customer satisfaction ratings.
- Conducted performance optimization on the website, resulting in a 20% decrease in page load times.
- Integrated Solana contracts seamlessly into the website, ensuring secure transactions and data integrity with a 15% reduction in potential vulnerabilities.
- Integrated various Solana wallets into the IDO platform, enhancing user accessibility and engagement by 15%.

### FOURDIGIT Inc.

May 2020- Feb 2021

Web3 & Full Stack Developer

Minato City

- Implemented smart contracts on the Ethereum blockchain, leading to a 15% reduction in transaction costs and gas fees.
- Integrated Web3 technologies into a web application, resulting in a 20% improvement in user engagement and retention.

- Integrated Chainlink oracles for real-time data feeds, leading to a 25% reduction in data latency.
- Utilized GraphQL for data querying in a full stack application, improving data retrieval speeds by 20%.
- Collaborated with teams to deliver end-to-end solutions, resulting in a 20% decrease in time-to-market for web applications and improved project delivery efficiency.
- Conducted performance analysis and optimization, resulting in a 15% improvement in page load times.

## Mahana Corporation

Apr 2019 – Mar 2020

UI/UX Designer & Front-end Developer

Shibuya City, Tokyo

- Developed interactive prototypes using tools like Adobe XD or Figma to visualize design concepts and gather feedback from stakeholders.
- Designed and implemented user-friendly interfaces for e-commerce websites, resulting in a 20% increase in user engagement.
- Conducted user research and usability testing to optimize the user experience of a mobile application, leading to a 15% decrease in bounce rate.
- Developed and maintained robust, scalable frontend applications using TypeScript and React, ensuring high code quality and responsiveness across various devices.
- Improved code efficiency by 80% through continuous optimization and performance tuning, resulting in more robust applications.

## EDUCATION

---

### Tokyo Institute of Technology

Sep 2018

Bachelor of Computer Science

Meguro City

- Data Structures and Algorithms: Learned how to design and analyze algorithms using various data structures like arrays, linked lists, trees, and graphs.
- Database Systems: Studied the basics of relational database systems, including designing database schemas, creating and querying databases with SQL, and optimizing performance.
- Operating Systems: Gained knowledge about the functioning of operating systems, including process management, memory management, and file systems.
- Programming Languages: Learned programming concepts and languages such as C++, Java, Python, and JavaScript.

## OTHER

---

- **Skills:**

- |                                    |  |                              |
|------------------------------------|--|------------------------------|
| ○ Customer Focus                   | ○ Creativity                           | ○ Time Management            |
| ○ Teamwork                         | ○ Adaptability                         | ○ Attention to Detail        |
| ○ Analytical Thinking              | ○ Fast learner                         |                              |
| ○ HTML, CSS, JavaScript/TypeScript | ○ React, Next.js, Vue, Tailwind CSS    | ○ Node.js, Go, Python, Flask |
| ○ MongoDB, PostgreSQL, Firebase    | ○ Mobile (React Native, Expo, Flutter) | ○ Chrome Extension           |
| ○ Testing (Jest, Enzyme)           | ○ SEO & Performance Optimization       | ○ Smart Contract (Solidity)  |
| ○ Web3.js & Ether.js               | ○ Version Control (Git, Gitlab)        | ○ Agile Tools (Jira, Trello) |

- **Languages:**

- English (Fluent)
- Japanese (Native)
