ABOUT ME

#OPENTOWORK!

In respect of my clients contracts and confidentiality I am not disclosing some information here but will be able to justify everything upon request.

I have been involved for over 15 years managing cybersecurity at major French or global companies.

Highly motivated and enthusiastic, I am now looking to get fully involved in the blockchain/finance/banking industry. I would like to act as a chief information security officer, CTO, project manager, auditor or advisor.

Daily rate range from 1250 to 2500\$/day.

I am fully available early December 2022, interested ? Let's plan an AMA session !

Contact : gdr+jobs@gedr.io

MANAGEMENT
