Experience with statistical and machine learning techniques

Strong analytical and problem-solving skills

Knowledge of NLP and other AI-related topics

Ability to work independently and as part of a team

Excellent communication and interpersonal skills

EXPERIENCE

Data scientist

03/2020 - 03/2022

Vietcombank

Hanoi

Company Description

- As a data scientist in this company, I was responsible for leveraging data to drive business insights and improve decision-making processes. I worked closely with other professionals in the bank, including traders, and risk managers, to identify relevant datasets, design and implement models, and communicate findings to stakeholders.

My technical skills were Python and Node.js.

I have participated in AI automation system development including NLP technologies.

During this time, I have developed fully customized AI chatbot for the company.
