Lavina Chhabra
Senior UX Designer

I am a lead UX designer with 7+ years of experience. I have led 5+ projects and has improved the user experience of 20+ products. With a Masters in UX design, I am an expert in creating user-centric products and solving complex problems. As a writer and a former engineer, I am empathetic and skilled in collaborating with the users (for user interviews and usability testing sessions) and developers (to understand the technical constraints and handing-off designs).

Experience

Lead UX designer at La Vie Design Studio, Remote
2021 - Current
I lead a small team and managed the projects from discovery to delivery.

Product designer at SpaSpace App, Remote
2021 - 2022 | Part-time (Contract)
As a senior designer, I took user interviews, coordinated with stakeholders and developers, and held usability sessions.

UX consultant at Infobeans technologies, Indore
2019 - 2021
I worked as a consultant, looking after Enterprise level projects, and collaborated with clients, business analysts and developers to provide the best user experience.

Product designer at Crive creatives, Pune
2018 - 2019
I worked with the CEO and users to build a strong user-centered product.

Interaction designer at iOSys data solutions, Bangalore
2017 - 2018
With my writing, communication and designing skills, I stepped into the world of interaction design.

Associate system engineer at IBM private limited, Bangalore
2015 - 2017
I worked for the client 'Volvo' in ecommerce cloud computation in support team.

Content writer at Cream and eggs design labs, Indore
2013 - 2014 | Part-time
My love for writing landed me a job in content writing.

Design systems
Prototyping
Wireframing
Information architecture

Recommendations

I was a CTO of a small startup and worked worked with Lavina when doing a UI/UX redesign of a 3 sided market place app. Lavina's had to listen to many stakeholders to make the changes required. She took ownership of the design and was able to explain how the UI should work to the developers. She is a professional and I would highly recommend her!

Susan Conger
CTO at SpaSpace App
