

FERRAN MARTINEZ

Web & Mobile App Developer

+34 672324112 @ ferranmartinez0422@gmail.com

github.com/ferranm99 Barcelona, Spain

EXPERIENCE

Fullstack Developer

2017 - 2018

So Visions

Barcelona, Spain

- Initiated and maintained the main workflow for the development process. Built fully automated CI/CD pipelines on CircleCI for containerized applications using Docker and DigitalOcean services. Led the technical team to implement Odoo modules that satisfy diverse customer needs. Drove the technical team to implement a RESTful API server for integrating Odoo with other third-party apps. Shipped and monitored client applications through different release stages.
- HTML, CSS, JavaScript
- React, Redux, Hooks
- Restful API
- NodeJS, Express, MySQL

Frontend Developer

2018 - 2019

Arabia Inform

Barcelona, Spain

Used social media APIs, such as Twitter Search API and YouTube Data API, to crawl data using back-end applications. Processed records from TV shows and programs to extract metadata and keywords. Implemented front-end applications that communicate with back-end applications.

- HTML, CSS, Typescript
- React, Redux Tool kit

Frontend Developer

05/2018 - 06/2021

EiCortelIngles

Barcelona, Spain

The big Spanish mall needed me to develop a high quality frontend with React and latest web technologies to provide a highly reactive and user- friendly interface.

- Angular, Typescript
- NestJS, Singlestore

Vue Developer

07/2020 - 08/2021

Allergenics

New Zealand

This firm needed my web expertise in order to create the frontend of their website with VueJS and TailwindCSS. The result was professional, fast-loading and intuitive for the user.

- VueJS, Vuex, Composition API
- PHP, Laravel, MySQL

Fullstack Developer

03/2021 - 07/2022

Backstage

Turkey

I had worked on the project for a year as a Fullstack developer. It's a NFT marketplace project and main chain is Binance. Frontend - React(Typescript), Material UI, Ethers, web3 Backend - Node(NestJS) , MongoDB Blockchain - Solidity, hardhat, Chainlink Server Management - AWS (ec2, s3 bucket, lambda)

- React, Material UI, Hooks,
- NestJS, MySQL

C# backend developer

10/2020 - 07/2021

Aqua eSolutions

United Kingdom

In the Spanish tech firm Aqua eSolutions, I got the chance to build a handful of different enterprise software such as ERP, CRM, cloud solutions and bots. The main technology that we used here was C# and LinQ

- .NET, MySQL

EDUCATION

Bachelor's degree in Computer Science

Pompeu Fabra University

10/2016 - 04/2020
