Professional Summary

Full-Stack Web Developer skilled in both front-end and back-end technologies, with experience building responsive, scalable web applications and working collaboratively with cross-functional teams to deliver impactful digital solutions.

Skills

Front-End: HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS, Vite

Back-End: Node.js, Express.js, MongoDB, Mongoose, PostgreSQL, Prisma, SQL

Tools & Others : Git, GitHub, Command Line, Office Tools, Windows OS, Networking

Work Experience

E-Commerce Web App (Personal Project)

Feb 2025 – Mar 2025

Full Stack Developer

- Built a complete e-commerce platform using React, Node.js, Express, and MongoDB.
- Implemented secure user authentication with JWT and integrated product management features.
- Designed a responsive UI using Tailwind CSS, ensuring a smooth user experience on all devices.

Shopping List App (Personal Project)

Mar 2025 – Apr 2025

React Developer

- Developed a shopping list app using React and Firebase for real-time data storage and user authentication.
- Integrated real-time synchronization, enabling users to access and update their lists across devices.
- Designed a responsive and intuitive UI, enhancing usability on both mobile and desktop.

Recipe Finder App (Personal Project)

Jan 2025 – Feb 2025

Front-End Developer

- Created a recipe search app with React, utilizing a public API to fetch recipes based on user-input ingredients.
- Implemented error handling, loading states, and input validation for a seamless user experience.
- Built a responsive layout with reusable components and clean design practices.

Education

Bakhtar University

Jan 2021 - Dec 2025

Bachelor's of Computer Science

CGPA: 3.5

Acquired comprehensive knowledge of software development, database systems, and computer networks, while gaining solid foundations in full stack development and core computer science principles. Through hands-on projects and academic training, developed strong problem-solving, analytical, and programming skills.

Relevant coursework: Web Development, Data Structures, Algorithms, Database Systems, Networking, Operating Systems.

Projects

- **Full Stack E-Commerce Web App (2025):** Built a complete e-commerce platform with React for front-end and Node.js/Express/MongoDB on the backend. Includes user authentication, product management, and responsive design.
- **Recipe Finder App (2025):** Built a dynamic web application that fetches and displays recipes based on user-input ingredients using a public API. Developed with React, featuring a responsive design and interactive UI to enhance user experience.
- **Shopping List App (2025):** Created a personalized shopping list application using React and Firebase. Integrated user authentication to ensure each user has a secure, individual list stored in real-time, with responsive design and intuitive interface.

Awards and Certificates

- **Front-End Developer Career Path at Scrimba:** Completed an in-depth, project-based learning path covering HTML, CSS, JavaScript, React, responsive design, accessibility, and Git. Built real-world projects and gained hands-on experience in front-end development best practices.
- Responsive Web Design at freecodecamp
- CIT (Computer Information Technology) at khorasan institution
