PSYCHOGRAPHY

Psychography is a brand for a modern streetwear with premium quality.

This is my personal project. I created a new breakthrough by combining 3d and 2d art in the design to give a premium impression in every t-shirt design. In addition, I also make animated videos for promotional purposes.

Branding

Justmine Beauty

Justmine Beauty is a beauty care product for facial skin (face care) and body skin (body care). Carrying the concept of a nature theme without compromising the color character of the corporate, is able to emphasize that this product is pure and environmentally friendly.

NFTs

Here is a summary of my NFTs piece.
I started joining the NFT space since June 2020,
working in several platform like ETH, TEZOS and SOLANA.
For now most of my work is for the 1/1 collection on Solana Blockchain.
I also have a collectibles there, for more details, you can visit all my social media.

Apart from doing commission work and NFTs,
I also often participate in several festival events.
Some of them are video mapping performers
for festivals and exhibitions.
Here I attach some events that I have participated.

In early 2021, I had a valuable opportunity to participate in the Mentorship Project organized by HP Asia. From thousands of submissions, I became one of 10 Great Artists who were selected to collaborate in the creation of a digital art entitled "REIMAGINED STORY OF RORO JONGGRANG". This digital artwork is exhibited and packaged in a video mapping.
