PROJECTS

Threads app clone

🔗 https://threads-app-ebon.vercel.app/

Messaging App Development built with React Native with Typescript

- Developed a messaging app clone using React Native, which includes features such as user authentication, group creation, real-time messaging, and media sharing.
- Utilized TypeScript and Expo 49 to create a pixel-perfect and intuitive user interface, resulting in a clean and user-friendly experience for the app's users.

STRENGTHS

Team Leadership

Communication

Completed a Communication course at Meta (Coursera) to enhance interpersonal skills and adapt communication style for increased team productivity and collaboration
