- Async programming

EDUCATION

BACHELOR OF COMPUTER SECURITY

University Yanki Kupaly

2019-2023

PROFILE

3 years production experience. English (**B2**+), Russian (Native). I am a **Full Stack Developer** with experience in creating websites and web-apps using HTML, CSS and JavaScript (**ReactJS**) in front-end and **Node.js(Express.js)** or **Django(Python)** in back-end. I'm looking for an interesting and challenging long-term Full Stack (or Frontend or Backend) position, as well as a great community with friendly people with whom we can make some interesting projects.
