

As seen on

HEY I'M MOHSEN

I've been designing for the past decade for clients **globally**, I've helped **hundreds of clients** to create a good **relationship** with their target **audience**.

Despite my regional restrictions in Iran, like nobody is allowed to use Paypal, Master Card, CashApp, Upwork, Amazon etc... I Workded with brands like **Cisco, Spotify, Nintendo, Adobe** with forged documents.

Therefore, It's not all about money. I've had no choice but serving my clients much better than other designers to achieve the thing I deserve. "Freedom"
