SUMMARY

With over 7 years of experience in full-stack development, I have a proven track record of delivering high-quality software solutions that meet business requirements and exceed user expectations. As a senior engineer, I am committed to staying up-to-date with the latest industry trends and incorporating emerging tools and technologies into my work. I possess strong communication and interpersonal skills that enable me to work effectively with cross-functional teams and build strong relationships with clients.A results-oriented professional committed to continuous learning and staying up-to-date with the latest industry trends.

HANDS-ON EXPERIENCE

Senior Full-Stack Engineer

Baby Apes   📅 12/2023 - 10/2023 📍 New York, US

Leading technology company specializing in the creation and distribution of non-fungible tokens (NFTs).

- Led the development of a new web application from concept to launch, using React and Node.js to build the frontend and backend, respectively.
- Developed a custom CMS system using React and Redux, allowing content editors to easily manage and publish content on the website.
- Built a scalable and fault-tolerant infrastructure using AWS, including EC2 instances, RDS databases, and S3 buckets.
- Optimized website performance by implementing caching strategies and reducing load times by 50%.
- Collaborated with cross-functional teams including UX designers and product managers to ensure that the application met business requirements and user needs.
- Mentored junior developers on best practices for full stack development, including code organization, testing, and deployment.

Senior Full-Stack Developer

Solarmy   📅 02/2023 - 12/2023 📍 Singapore

Solarmy is a limited battalion of 2D & 3D NFT Soldiers

- Developed and maintained a web application using AngularJS, Node.js, and MongoDB.
- Designed and implemented RESTful APIs to enable communication between the frontend and backend.
- Built an authentication and authorization system using OAuth 2.0 and JSON Web Tokens (JWT).
- Implemented automated testing using Mocha, Chai, and Sinon to ensure code quality and prevent regressions.
- Improved application performance by optimizing database queries and implementing caching strategies.

Senior Back-End Developer

GodzNFT   📅 02/2022 - 02/2023 📍 MIAMI LAKES, FL

THE WORLD'S FIRST DAO OPERATED NFT INCUBATOR, LAUNCHPAD AND GAME PLATFORM.

- Developed and maintained a high-volume transaction processing system using Python and Django, handling millions of transactions daily with 99.9% uptime.
- Implemented complex business logic and algorithms to ensure accurate and efficient transaction processing, resulting in a 30% increase in system performance.
- Designed and implemented data models and database schemas using PostgreSQL, optimizing query performance and ensuring data integrity.
- Conducted code reviews, provided constructive feedback, and mentored junior developers to foster a culture of learning and growth.

Smart Contract

### Bachelor of Computer Science

Kyoto Seika University

📅 10/2007 - 06/2011   📍 Kyoto, JP

Senior Front-End Developer

Honey Finance   📅 07/2021 - 02/2022   📍 New York, NY

Create lending pools by pairing any NFT and any fungible token together.

- Implemented responsive designs and optimized user interfaces for various devices, improving mobile user engagement by 25%.
- Collaborated closely with UI/UX designers to ensure pixel-perfect implementation of design concepts and seamless user interactions.
- Conducted code reviews, provided constructive feedback, and mentored junior developers to foster a culture of learning and growth.
- Actively participated in agile development processes, including sprint planning, daily stand-ups, and retrospectives, to deliver high-quality software solutions on time.

Web Developer

Hubble Protocol   📅 11/2020 - 03/2021   📍 Southern, US

A kind of Defi project deployed on Solana network.

- Developed and maintained responsive websites using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and optimal user experience.
- Integrated with third-party APIs to fetch and display dynamic content, such as social media feeds and real-time data updates.
- Stayed up-to-date with the latest web development trends and technologies, actively seeking opportunities for professional growth.
- Designed and implemented database schemas, ensuring data integrity and optimized query performance.
