PROJECTS

Budget Collab: Business & Personal Finance Manager

📅 2023 - 2023   📍 Lahore, Pakistan

Budget Collab is a versatile money management app designed for both personal and business use. It helps you track expenses, manage budgets, and collaborate on financial goals with partners and team members. With intuitive analysis tools and customizable features, Budget Collab makes budgeting simple and effective.

· Create and tailor income and expense categories to suit your needs.
· Set monthly budget targets to control spending and achieve financial goals.
· Visualize your spending habits with clean, detailed charts.
· Collaborate with partners and team members on financial tracking for multiple businesses.
· Easy-to-use interface with full offline functionality.
· Technologies: Flutter (frontend), PHP (backend)

PROJECTS

Daap NFC

📅 2023 - 2023   📍 Lahore, Pakistan

An NFC-based mobile app enabling users to connect and interact by scanning NFC cards. The app supports viewing profiles, chatting, group management, and contact card scanning with deep linking for seamless app navigation.

- **NFC Card Scanning:** View and connect with other users by scanning an NFC card.
- **Chat & Group Management**: Integrated Chat functionality and group management (add/remove users from groups).
- **Contact Card Scanning:** Add contacts through contact card scanning.
- **Deep Linking:** Deep linking to direct users to the app via links.
- Technologies: Flutter (frontend), PHP (backend).

Vape Dash Rider App

📅 2023 - 2023   📍 Lahore, Pakistan

A specialized mobile application designed to streamline the delivery process for vape products. The app enables efficient order management by notifying riders of new orders placed through a web interface, ensuring timely and accurate deliveries.

- **Order Notifications:** Riders receive instant notifications for new orders placed via the web platform, allowing for prompt action and efficient delivery.
- **Real-Time Tracking:** Features real-time tracking to monitor delivery status and optimize route planning.
- **Order Management:** Riders can view order details, update delivery status, and manage multiple deliveries seamlessly.
- **User-Friendly Interface:** Designed for ease of use, ensuring that riders can quickly navigate the app and focus on delivering goods efficiently.

LifeLine System

📅 2023 - 2023   📍 Location

A cutting-edge health safety application designed for emergency situations, featuring both a user mobile app and an admin panel. The system integrates with Lifeline watches, allowing users to store critical emergency details that can be accessed by others in urgent situations.

- **Emergency Details Storage:** Users can securely store and manage their emergency contact information and medical details directly in the Lifeline watch app.
- **Watch Integration:** Seamlessly integrates with Lifeline watches, enabling users to update and access their emergency information on the go.
- **Accessibility:** Provides a simple interface for users to view and manage their emergency details and settings.
- **Scan & Access:** In emergency situations, others can scan the Lifeline watch to access the stored emergency contact details, facilitating quick and effective assistance.
