Alireza Minooseresht

Software Engineer

Summary

I have been working as a software engineer for 10+ years and have held some roles not only as a developer but also as a software architect (in both back-end and front-end) for cloud-based and on-premises applications.

I have been interested in programming since I was a teenager. I feel happy about my career because some of my projects are winners among the programs of the biggest companies.

Specialties and abilities:

- * Software architecture
- * Software development
- * Database design
- * Software migration
- * Project management
