Contact me regarding the project you're serious about.
Please maintain professional conduct.

Experience

Blockchain Developer

TheGreenhouseSwap.Finance

Aug 2021 - Present (3 months +)

The next-gen Decentralized Exchange, Staking, and Farming Protocol on BSC

GreenhouseSwap is looking to be a leading decentralized exchange (DEX) on Binance Smart Chain focused on offering a premier trading experience.

Users are incentivized to pool liquidity on Greenhouse Swap through yield farming to earn well know and sort after Crypto tokens such as \$Bitcoin and \$Ethereum as well as the native currency, Chronic Yield \$CHY. This feature will be delivered soon!!!!

Additionally, Smokers can use their earned \$CHY. to stake and earn other tokens or unlock exclusive features.

Built by DeFi Smokers, for DeFi Smokers, we have a dedicated team with more than just Ounces and grams of passion

Frontend Developer

FLYING CARPET

Nov 2020 - Present (1 year +)

Blockchain Developer

TOTEM FINANCE SERVICES LIMITED

Feb 2021 - Sep 2021 (8 months)

Totem Finance is a cross-chain infrastructure project that builds liquidity for layer-one blockchains, AMMs, and partnering projects. Launching on Fantom, there is an exciting opportunity for farmers to earn TOTEM and other project tokens.

Totem Finance benefits from Fantom blazing fast transaction and low fees compared to othe
