WEB DEVELOPMENT
2021 - 2022
National Freelance Training Program

ABOUT ME

I'm a frontend web developer with a focus on delivering seamless user experiences through dynamic front-end interfaces. Specializing in end-to-end services, I create intuitive interfaces for websites and applications. Currently expanding my skills into backend technologies.

WORK EXPERIENCE

FRONTEND WEB DEVELOPER

Vigosol Company (2022-Present)

Design and Develop frontend of websites using HTML CSS, JAVASCRIPT, Bootstrap Tailwind CSS and React.

Gather and refine specification and requirements based on technical needs.

- Developed multiple projects for Vigosol, showcasing diverse skills and expertise, including:
  - **[Nexion]**
    - Description: Spearheaded the development of a dynamic gaming website aimed at providing an immersive gaming experience. Utilized modern web technologies and responsive design principles to ensure optimal performance across devices.
    - Live Link: [https://nexiongame.netlify.app/]
  - **[uCinema]**
    - Description: Empowers businesses through debt recovery with user-friendly interface. Utilized JavaScript and Bootstrap for robust platform, enhancing user engagement with responsive layouts. Implemented interactive features and responsive layouts to optimize user engagement and accessibility.
    - Live Link: [https://ucinema-new.netlify.app/en/index.html]
  - **[DebtRecover]**
    - Description: Developed DebtRecover, a groundbreaking web platform facilitating debt recovery without upfront costs to clients—the debtor covers expenses. Leveraged Tailwind CSS and JavaScript to craft an intuitive frontend interface, prioritizing user experience and accessibility.
    - Live Link: [https://debtrecover.netlify.app/]

These projects exemplify my proficiency in frontend development, from creating visually appealing interfaces to implementing complex functionalities. I am adept at collaborating with cross-functional teams to deliver high-quality solutions that meet client requirements and exceed expectations.
