By gaining experience for over 6 years, I can call myself a professional graphic designer with keen eye for detailing and designing manipulations. I make art in my designs which make it valuable as well.

Benefits of hiring me:

- 6 years of experience in designing
- knows video editing, SEO, IT Related work as well
- understanding the concept and delivering as imagination
- great communication skills to convince clients
- Talented enough to teach junior designers

Finding a job so that I can work long term for a company and gain exposure in the market.
