Joy Wibowo

CEO & Founder Gitshock Finance | Ethereum & Cosmos Network
Contributor
Bali, Indonesia

Summary

Hi, I'm Joy, a software engineer with experience in developing decentralized applications on the Ethereum and Cosmos networks. I'm passionate about leveraging blockchain technology to create trustless and secure systems that enable new possibilities for businesses and individuals.

As a blockchain contributor, I've contributed to the development and improvement of both the Ethereum and Cosmos networks. I've collaborated with other developers on open-source projects and have a deep understanding of the underlying technical concepts behind blockchain technology.

I'm always looking for opportunities to grow my skills and collaborate with other professionals in the blockchain and software development communities. I'm interested in exploring new ideas, pushing boundaries, and solving complex problems with innovative solutions. If you're interested in discussing potential opportunities or projects, feel free to connect with me or message me. I'm excited to see what we can achieve together!

Experience

Cartenz Elementus

Advisor

March 2023 - Present (7 months)

As a Cartenz Elements advisor, my role is critical in shaping startup success. Cartenz Elements is a collection of blockchain intelligence tools that combines a comprehensive dataset with patented algorithms, enabling financial institutions and crypto exchanges to leverage blockchain technology with ease and confidence. My deep understanding of the blockchain landscape, financial markets, and regulatory environment will be instrumental in navigating potential challenges and capitalizing on emerging trends. Additionally, a

network of industry connections will provide an invaluable resource for business development and potential partnerships.

Gitshock Edgeware

Chief Executive Officer

November 2021 - Present (1 year 11 months)

Indonesia

February 2019 - March 2020 (1 year 2 months)

Singapore

AT&T

Head Of Development

September 2015 - September 2018 (3 years 1 month)

Indonesia

AT&T Inc. is an American multinational telecommunications holding company that is Delaware-registered but headquartered at Whitacre Tower in Downtown Dallas, Texas. It is the world's largest telecommunications company and the largest

Oracle

Full Stack Developer

June 2011 - June 2015 (4 years 1 month)

Indonesia

Oracle database is a collection of data treated as a unit. The purpose of a database is to store and retrieve related information. A database server is the key to solving the problems of information management. In general, a server reliably manages a large amount of data in a multiuser environment so that many users can concurrently access the same data.
