Profiles

 [mohamadmourad511](#)

 [Mohamadmourad](#)

Summary

Highly motivated Computer Science student with a passion for building full-stack applications. Proficient in front-end development using React and mobile app development with Flutter. Eager to leverage backend skills and contribute to scalable software solutions.

Experience

The Funn Company

November 2024 - present

Internship

- Developed a dynamic website using Meteor.js, implementing both front-end and back-end functionalities.
- Implemented database operations, server-side methods, and real-time data synchronization using Meteor's ecosystem.
- Gained hands-on experience with full-stack development, debugging, and documenting workflows.

Education

Lebanese International University

October 2022 - Present

Computer Science

Bachelor of Science

3.94

Projects

Circulars - Social Media Website

 <https://github.com/Mohamadmourad/Circulars>

Developed a social media platform using **React** for the frontend and **Firebase** for the backend, enabling users to interact and engage within a dynamic online community.

React, Firebase

PocketMarket - E-commerce Mobile App

 <https://github.com/Mohamadmourad/Pocket-Market>

Built a mobile e-commerce application using **Flutter** for the frontend and **Node.js**, **Express**, and **MongoDB** for the backend, providing a seamless shopping experience.

Flutter, Dart, Node, Express, MongoDB

Skills

Programming

Java, Javascript, Dart, Python

Backend

Node, Express, MeteorJs

version control

git, github

Frontend

React

Mobile development

Flutter

Database

Mysql, MongoDB, Firebase
