M.Sadegh Sheikh Zahedi

SPRINGBOOT DEVELOPER

Application developer with 4+ years of experience developing banking system software solutions. Skilled in developing web APIs using Spring Boot, SQL, Hibernate, and Java. During my work career, I used to lead small software development teams with a focus on delivering high-quality web services using the most updated technologies and tools. I'm a good team player and I do my best to cooperate on challenging tasks with my teammates. I like to learn new technologies and software development methodologies alongside existing principles and patterns to produce high-quality applications and maintainable code.
