PROFILE

Passionate web and app developer with a proven track record of creating innovative, user-friendly digital products. Skilled in front-end, back-end, and full-stack development using the latest technologies and frameworks. Committed to delivering high-performing websites and mobile applications that drive business growth and customer engagement.

Skills

Front-End Development

- Proficient in HTML, CSS, and JavaScript for building responsive, mobile-friendly user interfaces
- Extensive experience with popular front-end frameworks like React, Angular, and Vue.js
- Skilled in creating dynamic, interactive web applications with seamless user experiences

Back-End Development

- Expertise in server-side technologies such as Node.js, PHP, and Ruby on Rails
- Adept at designing and implementing RESTful APIs for data exchange and integration
- Strong understanding of database management and optimization techniques

Mobile App Development

- Skilled in developing iOS apps using Swift and Android apps using Java and Kotlin
- Experienced in creating native, cross-platform, and hybrid mobile applications
- Knowledgeable in integrating third-party APIs and libraries to enhance app functionality

Other Skills

- Responsive design principles for delivering consistent experiences across devices
- Technical SEO best practices for optimizing website performance and search rankings
- Agile methodologies for efficient project management and collaboration
- Version control using Git for tracking changes and managing code repositories

Let's Collaborate

If you're looking for a versatile web and app developer to bring your digital vision to life, I'd be excited to discuss how my skills and experience can contribute to your project's success. Let's connect and explore the possibilities.
